THE ELECTION

A Surprise in Store for Many Voters.

A. V. GILBERT IS THE MAYOR

But is Chased by Bough in Great Shape.

A BIBLE-LOVING SCHOOL BOARD

Is Elected by Voters Who Love God and Their Country—The Women Turned Out in Masses and Did Commendable Work. Full Report of the Election in the City Yesterday.

The election is over, and several surprises were accorded the public. The day was a delightful one and a good crowd was at the polls throughout the day. The vote was the largest ever polled in the city, aggregating 2555. Much challenging was done, but few were barred from voting. A few mistakes were made by the women voters, who would occasionally wander into the wrong ward or precinct, but they always found a willing guide to show them the proper voting places, and to add whatever instruction was necessary in marking ballots, etc. There were few disturbances of note although an occasional brawl was indulged in. The women came out in armies, and voted with the courage of a "Hickory" Jackson Democrat.

Gilbert was hard pressed by Bough, and it was thought about 10 o'clock last night that Gilbert had been snowed under. But the returns from a couple of precincts came in and dispelled the doubt. Gilbert leads by 93 votes. The school board fight was a grand victory for the Bible-lovers. The people in the Third felt rather shaky at first, but when the count was completed it was found that the citizen candidates had carried the day. Cheer after cheer went up when the result became known. This morning we were kept busy answering the 'phone in regard to school board in the Third, and our answers were in each instance hailed with cheers and words expressive of their appreciation of the result.

FIRST WARD.
In the First ward the voters were out bright and early, and the workers toiled incessantly for their candidates.

In the first precinct, which was the first counted out, Gilbert led the list for mayor, having 71 votes to his credit, with Bough second, tallying 66, and Rube third, with 36, while Hall made a bad fourth, with but 10 votes. The Republicans also caught the remaining offices.

In the second precinct Gilbert more than made up his loss in the third by showing up 147 votes; Bough, 127; Hall, 36, and Rube, 31. Quite a number of women turned out and voted on the school board. Vodrey and Stevenson were the choice of the voters in that precinct.

Third precinct—Bough led for Mayor with 78 votes, Gilbert second with 69, Hall third with 19, while Rube came in last with 17. For school board Vodrey and Calhoun were the choice, with Crawford and Stevenson chasing them hard, there being but three votes difference in each instance.

SECOND WARD.
Much interest was manifested in the Second ward at both precincts, and a good vote was polled, both on city and school board.

First precinct—Gilbert in the lead, with 145; Bough second, with 105. Rube managed to step in ahead of Hall by four votes, having 26 to his credit, while he of the untitled was accorded 22. For school board Hodgson had 123; Norris, 186; Mrs. Watson, 211, and Faulk, 178.

Second precinct—Gilbert led Bough by 13 votes, while Rube again came in third, with double the number of Hall's vote, 36 being tallied opposite his name. The count for school board showed Hodgson, 127; Norris, 262; Watson, 190, and Faulk, 140.

THIRD WARD.
First precinct—There was more activity in this ward than in any other in the city. The women were there to defeat Will Smith and John N. Taylor and their efforts were crowned with success. Several parties were caught at trickery near the polls, and arrests may follow. The result in this ward was a surprise to many, as the Bible-workers had to contend with a powerful element. Too much praise cannot be given the ladies of the different societies for their commendable work.

First precinct—Gilbert again in the lead with 126 votes, Bough, 99; Rube, 39; and Hall 23. For school board—Murray Nickle lead with 357 votes, Mrs. Whitehead 352, Taylor 225 and Smith 218.

Second precinct—Gilbert exceeded Bough by only two votes, having 113 opposite his name, with Bough 111.

Rube came up with 60, while Hall was credited with 37. In the school board Nickle led with 342 votes, Mrs. Whitehead 324, Taylor 330, Smith 314.

FOURTH WARD.
In the Fourth ward the battle was fierce, and much interest was centered on the school board question. The good women of the town came out in large numbers for the avowed purpose of defeating Mrs. Calhoun, and succeeded. Two Prohibitionists were elected, Alex McGraw and J. C. McClain.

First precinct—Gilbert led Bough by 10 votes, having 132 votes to Bough's 122. Rube was third with 56, Hall following up the rear as usual with 21. For school board McGraw received 253 votes, McGraw 327, Mrs. Calhoun 169 and Owens 184.

Second precinct—Matters took a different turn in this precinct and Rube was hot after Gilbert, while Bough led with 98 votes. Gilbert's vote was 83, Rube 82 and Hall 22. For school board—McGraw, 358; McClain, 336; Calhoun, 112; and Owens, 125.

The election resulted as follows:
Mayor, Gilbert.
Treasurer, Herbert.
Solicitor, Grosshans.
Marshal, Johnson.
Commissioner, Finley.
Water works trustee, Shinkle.
Cemetery trustee, Kelly.

Justice of the peace, Manley.
Township trustee, Albright.
Township clerk, Hanley.
Constable, Bertele.
Assessors, Blake, Anderson, Allison, Ford.
Council, Marshall, Kent, Horwell, Ashbaugh.

School board, Stevenson, Vodrey, Norris, Watson, Whitehead, Nickle, McClain McGraw.

AN AWFUL EXPRESSION.
An Ungentlemanly Voter Indulges In Profanity.

A member of the Women's Christian Temperance union approached a voter of the city yesterday at one of the precincts in the Third ward, and kindly handed him a dodger respecting the election of school board. He sneeringly accepted the proffered circular, and turning to a companion said, in hearing of the lady: "Well, they can say what they please, and do as they please, but I'll vote the straight ticket if it takes the party to h— and I go to h— with it." It showed just what the fellow is—a poltroon and moral leper and an unfit companion for anyone with a spark of manhood. His conduct was disgusting in the extreme and an apology is due the lady whom he so grossly insulted. We refrain from giving the name of the fellow out of respect for his family, who are highly respected.

THE TOWNSHIP.

A Good Vote Polled by Our Rural People.

The township footed up 111 votes, and are distributed as follows:
Assessor—Boyd, 22; Moore, 50, Croft, 29; Conn, 10.
Constable—Bertele, 31; Allison, 31; Douglas, 35; Allison, 8.
Justice of the Peace—Manley, 37; McGlashen, 31; McGlashen, 33.
Trustees—Albright, 45; McCormick, 33; Brannan, 6.
Clerk—Hanley, 37; Grafton, 31; Harris, 35; Danberg, 8.

HE IS LOYAL.

Stopped the Gazette Because It Roasted McKinley.

A well known business man of this city has been a subscriber to the Pittsburgh Commercial Gazette ever since the first issue of that paper. He is an intense lover of William McKinley, and the misrepresentation of the paper designated, as against Ohio's honored son, caused the East Liverpool resident to order the Gazette stopped, despite the fact that long association therewith had made the journal almost a necessity in his life.

St. Clair Township.

The election in St. Clair township was one of the hottest contests ever

held in that community, and resulted in the polling of 260 votes, the largest amount ever cast in that township. Daniel J. Johnson and Elmer E. Birch, the Republican nominees for justice of the peace, were elected, and Charles Q. Gonzales, the Democrat, won for township trustee, as did John Mahaffie, the nominee of that party, for clerk. The Republicans succeeded in electing J. F. Mace for assessor and George W. Brown for constable. This was the first year a Prohibition ticket ever made its appearance in that township, and their total vote was 25.

WELLSVILLE.

The Republican Candidate for Mayor is Defeated.

The election in Wellsville was an unusually exciting one, and all day long the streets near the polls were thronged with people working might and main for their respective candidates. Early last week it was conceded that if the Republican nominee was to win at the election he would have a hard row to hoe, as the Prohibitionists and Populists had fused, and proposed to make it very lively. When the votes were counted Jones, the fusion candidate, had 469 opposite his name, while Silvers, the Republican candidate, was just six votes behind him, having 463. Bowers, the Democratic candidate, was lost in the shuffle, and had only 196 to his credit. The rest of the Republican ticket was elected with comfortable majorities.

LEETONIA.

John Greenamyer Defeats His Opponent of the Same Name.

Special to News Review.

LEETONIA, April 7.—The vote in this city was badly cut, only one straight ticket being voted. Great excitement prevailed at the polls throughout the day, and the vote was large. John Greenamyer, Democrat, defeated his opponent, Josh Greenamyer, by a small margin, for mayor.

SALEM.

Elects a City Ticket and Votes on a Bond Issue.

SALEM, April 7.—The Republican ticket was elected in Salem yesterday with the exception of city solicitor, which fell to Taylor, the Democratic nominee. Hale was the Republican nominee and is in the hole to the extent of 87 votes. The question to issue bonds for the erection of a new school house was voted on and carried by over three to one.

Election Notes.

There were a large number of school board tickets that were voted blank yesterday. A number were also marked wrong and had to be thrown out.

The vote on school board in one precinct of the Fourth ward will be somewhat changed when the recount is made, but there will not be any difference in the makeup.

An amusing incident occurred in the first precinct of the Third ward yesterday afternoon. An expressman, who had the sides of his wagon covered with candidates cards, drove up the street and stopped only a few feet from the polls to get a load. A practical joker who was standing near informed an acquaintance that the man was violating the election laws, and he in turn informed the expressman that he would either have to take the cards down or be arrested. The expressman became frightened and removed the cards from his wagon in a hurry.

Money flowed freely, and many bets were wagered until a late hour last night, the principal wagers being on the fight between Gilbert and Bough.

Madison Township.

The result of the election in Madison township is as follows: Justice of the peace, W. O. McCurdy; trustee, H. H. Martin; clerk, John McCaskey; assessor, Daniel E. Jack; supervisors, J. P. Patterson, Sam Shiner, H. Custer, William Burcar, G. F. Eells.

Lisbon.

Special to the News Review.

LISBON, April 7.—A full Republican ticket was elected here yesterday. The day was very quiet, and little interest was manifested in the election.

Columbiana.

COLUMBIANA, April 7.—A. C. Bell, fusion candidate, was elected mayor by a good majority. The election was an unusually quiet one.

FOR GOD'S HOLY WORD

Smith and Taylor Receive Their Just Deserts.

JEKYL JERRY'S BRAINLESS BRAY

The Loyal Men and Women of the City Hotly Resent the Imputation That Their Members are Thieves—The Christian Women of East Liverpool Did Glorious Work.

The patriotic organizations of the city embrace a membership which is a power for good. The members thereof dearly love the "Little Log School House" and all it represents, and they embrace the Bible in this category. The Weekly Tribune has advocated "No Bible," and has espoused the cause of Smith and Taylor, and when that detestable non-union sheet came out on Saturday last with a so-called editorial, teeming with falsehoods, among which was the statement that the candidates on the "Bible" ticket would advocate compulsory responsive reading of the book of books, aiming to please an element distinctly and pronouncedly antagonistic to the "Little Log School House" and the blessed word of God and added insult to injury by declaring that so-called patriotic citizens had been trying for some time to get their fingers in the treasury of the public school fund, forbearance ceased to be a virtue, and the members of the loyal legions of East Liverpool went on the war path, eager for the scalps of Taylor and Smith, while the Woman's Christian Temperance union members backed them up nobly in the fight, canvassing the Third ward assiduously and tackling voters indiscriminately, paying no attention to hot rebuffs, even when given them by a prominent and very angry candidate. The result was the utter rout of the foe, and a grandly glorious victory for Mrs. Jesse M. Whitehead and A. Murray Nickle. In the Third ward it was not a defeat of Republican candidates, for the so-called Republicans did not depend upon Republican votes, but upon the very opposite, and Bible loving Republicans, Democrats, Populists, Prohibitionists and members of the labor ticket, snowed under the "No Bible" candidates. It was a grandly glorious victory of good citizens, men and women who love and venerate the word of God, and who love the glorious public school system of this, the best land on the face of the earth. By the way, the members of the loyal societies want to see the stars and stripes swing out each day, in conformity with the law regarding school houses, and not on "seldom" occasions, as has lately been the rule. PATRIOTIC.

A CALL FROM 24.

The Fire Department Responds in Quick Order.

An alarm was turned in from box 24 about 7:30 last night, and the department made a quick run. A lantern exploded in the wholesale house of A. W. King, on Sixth street. The flames, which were shooting up towards the ceiling, were quickly extinguished by an employee, who threw a blanket over the blaze and smothered it, while a boy hurried the lantern out on the street and turned in the alarm. The flames were extinguished before the fire company arrived. The only damage is to a pile of wrapping paper, which was charred.

DEPUTY TAYLOR

Catches a Boy Shooting in the City Limits.

A boy was practicing marksmanship with a rifle on Peppercorn street yesterday afternoon and ravaging 32-caliber bullets into every object that caught his eye. Doctor W. J. Taylor, who by the way is a deputy on Sheriff Gill's staff, happened along and told the boy to cease shooting in the city. The youth was reluctant to comply with the deputy's request, but when a badge was exhibited he lost no time in placing the rifle away, and begged leniency at the hands of the officer, which was granted.

Broke Off the Locks.

Chicken thieves are again getting in their work. The other night Jacob Kountz, who lives near the street car track just beyond Walker, had the locks broken off his barn and 28 chickens stolen. As usual the nocturnal marauders are unknown, and there is no clue to their identity.

The Wire Was Down.

The wire of the street car line was down at the curve at the entrance to Wellsville last night. Nancy was called out and repaired the break.

Second precinct—Gilbert exceeded Bough by only two votes, having 113 opposite his name, with Bough 111.

Ruhe came up with 60, while Hall was credited with 37. In the school board Nickle led with 342 votes, Mrs. Whitehead 324, Taylor 330, Smith 314.

FOURTH WARD. In the Fourth ward the battle was fierce, and much interest was centered on the school board question. The good women of the town came out in large numbers for the avowed purpose of defeating Mrs. Calhoun, and succeeded. Two Prohibitionists were elected, Alex McGraw and J. C. McClain.

First precinct—Gilbert led Bough by 10 votes, having 132 votes to Bough's 122. Ruhe was third with 56, Hall following up the rear as usual with 21. For school board McClain received 253 votes, McGraw 327, Mrs. Calhoun 169 and Owens 184.

Second precinct—Matters took a different turn in this precinct and Ruhe was hot after Gilbert, while Bough led with 98 votes. Gilbert's vote was 83, Ruhe 82 and Hall 22. For school board—McGraw, 358; McClain, 336; Calhoun, 112; and Owens, 125.

The election resulted as follows: Mayor, Gilbert. Treasurer, Herbert. Solicitor, Grosshans. Marshal, Johnson. Commissioner, Finley. Water works trustee, Shenkle. Cemetery trustee, Kelly. Justice of the peace, Manley. Township trustee, Albright. Township clerk, Hanley. Constable, Bertele. Assessors, Blake, Anderson, Allison, Ford. Council, Marshall, Kent, Horwell, Ashbaugh. School board, Stevenson, Vodrey, Norris, Watson, Whitehead, Nickle, McClain McGraw.

AN AWFUL EXPRESSION. An Ungentlemanly Voter Indulges in Profanity. A member of the Women's Christian Temperance union approached a voter of the city yesterday at one of the precincts in the Third ward, and kindly handed him a dodger respecting the election of school board. He sneeringly accepted the proffered circular, and turning to a companion said, in hearing of the lady: "Well, they can say what they please, and do as they please, but I'll vote the straight ticket if it takes the party to h— and I go to h— with it." It showed just what the fellow is—a poltroon and moral leper and an unfit companion for anyone with a spark of manhood. His conduct was disgusting in the extreme and an apology is due the lady whom he so grossly insulted. We refrain from giving the name of the fellow out of respect for his family, who are highly respected.

THE TOWNSHIP. A Good Vote Polled by Our Rural People. The township footed up 111 votes, and are distributed as follows: Assessor—Boyd, 22; Moore, 50, Croft, 26; Conn, 10. Constable—Bertele, 31; Allison, 31; Douglass, 35; Allison, 8. Justice of the Peace—Manley, 37; McGlashen, 31; McGlashen, 33. Trustees—Albright, 45; McCormick, 33; Brannon, 6. Clerk—Hanley, 37; Grafton, 31; Harris, 35; Danberg, 8.

HE IS LOYAL. Stopped the Gazette Because It Roasted McKinley. A well known business man of this city has been a subscriber to the Pittsburgh Commercial Gazette ever since the first issue of that paper. He is an intense lover of William McKinley, and the misrepresentation of the paper designated, as against Ohio's honored son, caused the East Liverpool resident to order the Gazette stopped, despite the fact that long association therewith had made the journal almost a necessity in his life.

St. Clair Township. The election in St. Clair township was one of the hottest contests ever

held in that community, and resulted in the polling of 260 votes, the largest amount ever cast in that township. Daniel J. Johnson and Elmer E. Birch, the Republican nominees for justice of the peace, were elected, and Charles Q. Gonzales, the Democrat, won for township trustee, as did John Mahaffie, the nominee of that party, for clerk. The Republicans succeeded in electing J. F. Mace for assessor and George W. Brown for constable. This was the first year a Prohibition ticket ever made its appearance in that township, and their total vote was 25.

WELLSVILLE. The Republican Candidate for Mayor is Defeated. The election in Wellsville was an unusually exciting one, and all day long the streets near the polls were thronged with people working might and main for their respective candidates. Early last week it was conceded that if the Republican nominee was to win at the election he would have a hard row to hoe, as the Prohibitionists and Populists had fused, and proposed to make it very lively. When the votes were counted Jones, the fusion candidate, had 469 opposite his name, while Silvers, the Republican candidate, was just six votes behind him, having 463. Bowers, the Democratic candidate, was lost in the shuffle, and had only 196 to his credit. The rest of the Republican ticket was elected with comfortable majorities.

LEETONIA. John Greenamyer Defeats His Opponent of the Same Name. Special to NEWS REVIEW. LEETONIA, April 7.—The vote in this city was badly out, only one straight ticket being voted. Great excitement prevailed at the polls throughout the day, and the vote was large. John Greenamyer, Democrat, defeated his opponent, Josh Greenamyer, by a small margin, for mayor.

FOR GOD'S HOLY WORD

Smith and Taylor Receive Their Just Deserts.

JEKYL JERRY'S BRAINLESS BRAY

The Loyal Men and Women of the City Hotly Resent the Imputation That Their Members are Thieves—The Christian Women of East Liverpool Did Glorious Work.

The patriotic organizations of the city embrace a membership which is a power for good. The members thereof dearly love the "Little Log School House" and all it represents, and they embrace the Bible in this category. The Weekly Tribune has advocated "No Bible," and has espoused the cause of Smith and Taylor, and when that detestable non-union sheet came out on Saturday last with a so-called editorial, teeming with falsehoods, among which was the statement that the candidates on the "Bible" ticket would advocate compulsory responsive reading of the book of books, aiming to please an element distinctly and pronouncedly antagonistic to the "Little Log School House" and the blessed word of God and added insult to injury by declaring that so-called patriotic citizens had been trying for some time to get their fingers in the treasury of the public school fund, forbearance ceased to be a virtue, and the members of the loyal legions of East Liverpool went on the war path, eager for the scalps of Taylor and Smith, while the Woman's Christian Temperance union members backed them up nobly in the fight, canvassing the Third ward assiduously and tackling voters indiscriminately, paying no attention to hot rebuffs, even when given them by a prominent and very angry candidate. The result was the utter rout of the foe, and a grandly glorious victory for Mrs. Jesse M. Whitehead and A. Murray Nickle. In the Third ward it was not a defeat of Republican candidates, for the so-called Republicans did not depend upon Republican votes, but upon the very opposite, and Bible loving Republicans, Democrats, Populists, Prohibitionists and members of the labor ticket, snowed under the "No Bible" candidates. It was a grandly glorious victory of good citizens, men and women who love and venerate the word of God, and who love the glorious public school system of this, the best land on the face of the earth. By the way, the members of the loyal societies want to see the stars and stripes swing out each day, in conformity with the law regarding school houses, and not on "seldom" occasions, as has lately been the rule. PATRIOTIC.

A CALL FROM 24.

The Fire Department Responds in Quick Order.

An alarm was turned in from box 24 about 7:30 last night, and the department made a quick run. A lantern exploded in the wholesale house of A. W. King, on Sixth street. The flames, which were shooting up towards the ceiling, were quickly extinguished by an employee, who threw a blanket over the blaze and smothered it, while a boy hurled the lantern out on the street and turned in the alarm. The flames were extinguished before the fire company arrived. The only damage is to a pile of wrapping paper, which was charred.

DEPUTY TAYLOR

Catches a Boy Shooting in the City Limits.

A boy was practicing marksmanship with a rifle on Ravine street yesterday afternoon and peppering 32-calibre bullets into every object that caught his eye. Doctor W. J. Taylor, who by the way is a deputy on Sheriff Gill's staff, happened along and told the boy to cease shooting in the city. The youth was reluctant to comply with the deputy's request, but when a badge was exhibited he lost no time in placing the rifle away, and begged leniency at the hands of the officer, which was granted.

Broke Off the Locks.

Chicken thieves are again getting in their work. The other night Jacob Kountz, who lives near the street car track just beyond Walker, had the locks broken off his barn and 28 chickens stolen. As usual the nocturnal marauders are unknown, and there is no clue to their identity.

EAST LIVERPOOL, O., TUESDAY, APRIL 7.

For President,
WILLIAM MCKINLEY,
Of Ohio.

JOHN HALL.

John is a good citizen and a clever gentleman; but he was compelled to bear the burdens of the two "D's"—a Disreputable Democrat (?) and a Disgruntled Republican (?). They occupy prominent positions on the "Sobbing Maiden," and have inflicted incalculable injury upon the Democratic party, as men of clean hands and pure hearts will not train with them. John Hall was heard to say this morning, in tones of absolute disgust: "I'll be blamed if I believe there is any Democratic party in East Liverpool."

THE RESULT.

It was an uprising of the people, and the slaughter has been awful. Good men and true women have become sickened with the rottenness and corruption of party politics, as represented by men who have not loved the party but have loved the spoils, and have stooped to anything in order to secure position or control the machine. "You can fool all the people some of the time; you can fool some of the people all of the time; but you cannot fool all of the people all the time." True manhood, under God, will at times rise in its majesty, and then the men who lack in principle must stand from under. Thank God.

MRS. WHITEHEAD.

The News Review makes its bow to Mrs. Whitehead, and takes genuine pleasure in recording her victory over Will L. Smith. We do not desire to indulge in sarcasm at the expense of a fallen foe, but we cannot refrain from quoting John N. Taylor's words to this noble woman, a few days since, as he courteously and smilingly accosted her: "Mrs. Whitehead, I do not desire to be egotistic or boastful, and you will excuse me when I tell you that you will not be a member of the next school board." And only to think that the gallant colonel has the smallest number of votes of any candidate in the noted Third ward. As our Irish friend says: "A bird in the hand gathers no moss."

MAYOR GILBERT.

A. V. Gilbert has succeeded himself for the berth of the chief magistrate of the city, after a hot contest, on account of the various tickets in the field. Two years ago A. V. Gilbert promised to faithfully and conscientiously enforce the laws of the municipality if elected by the people, and he claims that he has kept that promise to the very best of his ability. His constituents are his judges, and they have decided the question in his favor, after one of the hottest contests ever known in this city. Personally, A. V. Gilbert has been courteous and gentlemanly to the management and attaches of the News Review, and has the very best wishes of this paper in his conduct of municipal affairs, in so far as he does his full duty, squarely and unflinchingly. He has the opportunity of making for himself an enviable reputation as the magistrate of this hustling pottery center for the next two years, and by the fearless enforcement of law, currying neither fear nor favor from any one, will have the respect and good wishes of all true and good citizens. In the performance of your full duty, Mayor Gilbert, the News Review doffs its hat to you and wishes you success and prosperity.

PRaise GOD.

"Praise God from whom all blessings flow." We use the quotation reverently and only because we are very glad that the opponents of the inspired word of God have received their just dues, despite the use of

money, influence and an element which is antagonistic to the Bible and the glorious public school system of this land of the free and home of the brave. The great fight was in the Third ward against John N. Taylor and Will L. Smith, the men who were the leaders in the dismissal of those two noble teachers, Misses Little and Jessop, because those dear ladies preferred principle to position, and dared, as every true Christian man and woman should, back their convictions with noble courage. This battle has been a gallant one, and to the Christian women of East Liverpool and the members of the various patriotic organizations, much of the credit is due for the glorious victory. Again, much credit is due to many men who are not professed Christians, but who love their children, their darling boys and girls, their wives and homes, and the prosperity of East Liverpool, and whom common sense teaches that the Bible is a grand helper to everything that is good and noble. Again, the Christian ministers of East Liverpool deserve great credit—those true men who brought Evangelist Schiverea and John G. Woolley into our midst and, under God, created a sentiment which has wrought out wondrous and lasting good for the city we love so well. This battle for the Bible has been heralded all over this great nation, and many hearts in many places will be made glad through the victory. "Praise God from whom all blessings flow."

HOW COMEDIAN CRANE WAS SNUBBED
He Gives a Young Actor Some Good Advice About Self Conceit.

A very young man who made a hit in a new play in this city called on William H. Crane one morning and in a very patronizing manner remarked that he would consider an offer to join the comedian's company. The actor greeted him very cordially, for he had always been a very nice, modest young man, but it was not long before the actor discovered that there was something the matter with his young friend. He held his head very high and showed certain unmistakable signs of being caudish. It did not take the actor long to see that the boy was suffering from the affliction known as "big head," and calling to his valet to shut the door from the outside he proceeded to do what he considered his duty.

"Look, here, my boy," said he, "you are suffering with worms. Now, don't start. Sit still till I get through. One bit doesn't make an actor any more than one swallow is going to make next summer. You remind me of myself when I was but a 'prentice hand. I got a chance to play a small part and accepted it. In my own valuable estimation I made the biggest kind of a hit in it. The morning after I walked around the lobby of the cheap hotel in which I was then proud to stop as happy as any lord. I wanted everybody to point me out as that bright young actor who made the big hit the night before. "For a long time no one noticed me, and I could not understand it. Finally a sharp-eyed man called me to him, which I thought was a strange proceeding, and asked me if I hadn't appeared in the show the night before. I was nearly tickled to death, for I had been discovered. I proudly replied that I had. "First appearance?" he asked. "Yes, sir," I replied. "What salary do you get?" was his next question. I told him that I got nothing just then, which was the truth. The inquisitive one shifted his cigar, looked me over very carefully for a minute, and turning on his heel said I was well paid. The reply nearly paralyzed me. I don't know but that I went up to my room and orled. The man took all the conceit out of me, and today he is my warmest friend. Get yourself back to earth now, and take my words in a kindly sense. None of us can afford to have big heads."

The young man left very angry, but next day wrote the actor a letter, apologizing for his conduct and thanking him for his advice.—New York Times.

THE ELECTIONS IN OHIO.

The Democrats Made Gains at Some Points.

FEW WOMEN WENT TO THE POLLS.

A Small Percentage Took Advantage of the Privilege of Voting For Members of School Boards—Some Women Candidates Elected Several Places.

CINCINNATI, April 7.—Exceptionally pleasant weather prevailed over Southern Ohio for the municipal and township elections. Many women voted for members of school boards, and some of that sex were elected, but the percentage of women voting was small. The returns show on the average Democratic gains over last fall, when the state gave its largest Republican plurality. No political issues were at stake anywhere outside of the political control of local affairs. Some towns and townships have gone Democratic for the first time since the presidential election of 1892.

At Lima, the Democrats elected Dr. S. A. Baxter, the neighbor and friend of Senator Brice, mayor, by 300, and the Republicans elected the rest of the city ticket and council.

At Greenville the Democrats made gains. There was no election in Cincinnati, but the suburban returns show Democratic gains over last November. At Hamilton, the home of ex-Governor Campbell, the vote was 2,000 short, the Democrats electing everything except one assessor by average pluralities of 800.

At Urbana the Republicans carried all by 400. At Warren, Elyria and Marysville the Republicans elected their entire ticket. At Millersburg the Democrats elected their ticket on a very light vote.

At Caldwell, a Republican stronghold, the Democrats elected the mayor and city clerk, the Republicans getting the rest of the ticket. At Van Wert, for the second time in the history of that city, a Democratic mayor was elected by 150. The rest of the Republican ticket had an average plurality of 400.

The election in Cleveland was for a school director, three members of the school council and 11 members of the city council. But little interest was manifested in the contest and the vote was about one-third short of the usual poll at a municipal election. The Republicans elected all their candidates, with the exception of one member of the city council by pluralities of 7,000 and upwards. The Democrats will now have but three members of the city council out of 22, two of them being holdovers. The school council is solidly Republican.

The Republicans carried the city of Akron by a plurality 300 greater than a year ago, electing six members of the city council and five out of six members of the board of education. The Democrats carried Sandusky, making gains over last spring. At Fremont the Democrats made gains.

The Republicans won at Oberlin and Media, as usual. At East Liverpool woman suffrage won. Recently the school board discharged teachers reading the Bible on opening school. The women employed carriages and 2,400 votes were cast by women in the town, defeating all members of the school board who voted for the discharge of teachers who read the Bible.

At Massillon the Democrats elected the mayor by 172, the remainder of the ticket being divided. At Alliance the Democrats reduced the usual Republican plurality of about 700 to less than 100 on all offices except mayor. The Republican candidate for mayor won by the usual margin.

A combination ticket was elected at Ashtabula, party lines being disregarded.

The Republicans won at Fostoria. At Youngstown the Republican candidate for mayor was defeated by 235, because of the charge that he was affiliated with the A. P. A. The remainder of the Republican ticket was elected.

At Delaware the Republicans elected all their candidates with the exception of township clerk.

At Findlay the Republicans made a clean sweep, their candidate for mayor making a gain of 100 over the plurality last fall. At Wapakoneta the Democrats elected J. J. Connaughton, mayor, and Adam Schaffer, treasurer, by 300 votes. At South Charleston, the old home of Whiteaw Reid, the Democrats elected their first mayor and marshal. The place has been incorporated 60 years. At Dayton Jacob Linkewer, Democrat, was elected mayor by 5 votes, defeating General Sam B. Smith, Republican. The Republicans elected the rest of their ticket, except waterworks trustee, and secured control of council and school board.

At Chillicothe and Madisonville the Republicans and Democrats divided the tickets equally. At Circleville the Republicans made gains, electing 9 out of the 11 officers. At Troy, Piqua, Springfield, Findlay and London the Republicans elected their entire tickets. At Wooster the Republicans elected most of their ticket and the Democrats secured control of council. At Zanesville the Republicans suffered losses, but elected their city ticket by pluralities of less than 100 votes.

At Tiffin the Democrats elected their ticket by a reduced majority.

Street Car Strike in Buffalo. BUFFALO, April 7.—The street car conductors and motormen have tied up the street railway system in Buffalo at 5 o'clock this morning. The leaders claim that 90 per cent of the 1,300 employees went out.

Result in North Dakota.

ST. PAUL, April 7.—The elections in various towns in North Dakota were of little political significance, but a few of them were of more than ordinary interest. Party lines were not drawn in most cases, and where they were the result was divided.

Unimportant Elections in Minnesota.

ST. PAUL, April 7.—Only a few elections were held in a few scattering towns in Minnesota and but a few of those developed any contests.

A RIVAL FOR A RAYS.

Parkersburg People Excited Over a Day Laborer's Invention.

PARKERSBURG, W. Va., April 7.—The invention of A. G. Davis of this state by which objects are distinctly seen when obstructions of various kinds are placed between them and the observer, is attracting a great deal of attention. The instrument is simply two boxes made of wood or glass one foot square, and standing 12 inches apart. About two inches from the top is a hole through each box. An object placed beyond the further box can be seen distinctly by an observer looking through the small hole in the other box.

Mr. Davis has experimented by placing iron, steel, brass, silver, flint, platinum, wood, paper, human and animal flesh, buckets of lard, oils, acids, large objects of all shapes and sizes between the boxes, and they have had no effect whatever, except in the case of silver, when a whiter and milder light is produced.

During a public exhibition of the contrivance a painter named Munday said he could stop the light, and placed a closed dinner bucket between the boxes. This is the first thing that has impeded the view. What the bucket contained has not yet been learned, but it was some chemical, and a very heavy weight, in the nature of an acid.

So intense has the interest become in this instrument that the owner, when giving the first exhibition, required three hours to go one square, so dense was the crowd. Policemen had to clear the street and the street cars were blocked.

Day is a day laborer at the Parkersburg lumber mill. He was formerly a clockmender, and has but little education.

LATTER DAY SAINTS.

Convention Being Held in an Old Mormon Temple at Kirtland, O.

KIRTLAND, O., April 7.—The annual conference of the reorganized church of Jesus Christ of Latter Day Saints, is in session here in the old Mormon temple, with a large attendance. There are delegates present from Canada, California, Maine, Mississippi and from the intermediate points. There are four of the members of the original church. They are President Joseph Smith, Elder J. C. Clapp and Elder Albert Hovey from California and Alexander H. Smith.

The denomination claims to be the original church, established in 1830 by Joseph Smith, and out of which sprang the Mormon church of Utah under Brigham Young. The reorganized sect does not, nor never did, practice polygamy.

Alleged Checkraiser Arrested.

NEW YORK, April 7.—Detective Michael E. Nolan of Albany, assisted by Detective Butler, of Pinkerton's agency, acting for the American Bank association on a bench warrant, has arrested Daniel Beneycke alias "Big Dan," who is charged with having defrauded the National Commercial bank of Albany, on Nov. 14, 1892, with draft for \$1,600, which had been "raised" from \$15.

Harrity Calls a Meeting.

PHILADELPHIA, April 7.—Chairman Harrity of the Democratic national committee has called a meeting of the subcommittee having charge of the arrangements for the Democratic national convention. The meeting will be held at the Palmer House, Chicago, on Friday, April 10, at 2 p. m. Further progress is expected in the arrangements being made for the convention.

Some Negroes Refused Registration.

COLUMBIA, S. C., April 7.—Registration has been opened throughout the state, under the provisions of the new constitution requiring a property or educational qualification for voting. A few negroes were refused, but a great majority were accepted. In the country districts the reverse will be true, as few of the negroes have any education.

Peru Pleased With Congress' Action.

LIMA, Peru, April 7.—The vote of the United States house of representatives on the question of Cuban belligerency was promptly bulletined. The greatest enthusiasm was manifested by the people over the house's action, and sympathy with the Cubans was very generally expressed.

Plotted to Abduct Vanderbilt.

SAN FRANCISCO, April 7.—George E. Gerd, late chief of the Southern Pacific company's detective service, says anarchists had planned to hold up the Vanderbilt special train, and abduct Cornelius Vanderbilt, and it has transpired that the officials of the Southern Pacific company blocked the game.

A Hanging in Montana.

HELENA, MONT., April 7.—William Biggerstaff, colored, has been hanged here for the murder of Richard Johnson, champion fighter of Montana. Biggerstaff was perfectly composed. His neck was broken and he was pronounced dead in eight minutes.

Dygart Likely to Be Freed.

WASHINGTON, April 7.—There is every reason to believe that Walter Dygart, the young American who has been held under arrest at Guines, Cuba, under suspicion of complicity in the revolution, will be a free man in a short time.

An Explosion at Piqua.

PIQUA, O., April 7.—The 100 horsepower boiler of the Orr Linseed Oil mill exploded, wrecking the east wall and damaging the whole structure. Loss, \$75,000. Three employees were slightly injured.

Bishop Ryan Seriously Ill.

BUFFALO, April 7.—Bishop Stephen Vincent Ryan, of the Catholic diocese of Buffalo, is seriously ill and his physicians entertain but little hope of his recovery. He is about 70 years of age.

Election at Des Moines.

DES MOINES, April 7.—Late returns indicate that MacVicar, Republican, for mayor, was elected over Loomis, Democrat, by 1,000. The contest was largely on party grounds.

Will Be Consecrated May 1.

MARQUETTE, Mich., April 7.—Advice received here state that the date of consecration of Bishop G. Mott Williams has been fixed for May 1, and the place Detroit.

TRUE TO VOLUNTEERS.

Mrs. Booth-Tucker's Pleadings Proved Futile.

BALLINGTON BOOTH'S STATEMENT.

He and His Wife Say They Still Love Their Sister, but Nothing Will Swerve Them From Their Course—Met at Ballington's House.

NEW YORK, April 7.—The following statement has been made by Commander and Mrs. Ballington Booth in the headquarters of "The Volunteers": "We have met and had a long interview with our sister, Mrs. Booth-Tucker, and wish it most distinctly understood that our attitude is absolutely unchanged, and that our future plans for The Volunteers will go forward as heretofore stated."

"We are, however, anxious to have it clearly stated that this interview was of a sisterly and brotherly character, and that, apart from the matters of controversy on which we must still differ, there exists, as there always has, the warmest affection for Mrs. Booth-Tucker as a sister."

Commander and Mrs. Ballington Booth left for Chicago today, returning to this city late on Friday. Thursday they will address a mass meeting in the Auditorium, and on the following day they will receive the officers and soldiers of the Northwestern district who succeeded from the regular army last week. The meeting took place in Ballington Booth's residence at Mont Clair, N. J., and besides the principals there was present Dr. McKelway of Philadelphia.

THE STATE LEGISLATURE.

A Number of Bills Introduced in Both House and Senate.

COLUMBUS, April 7.—A bill has been introduced in the senate providing for a tax on the manufacture of beer. Other bills introduced in the senate were:

Giving to boards of trustees of benevolent institutions the authority to condemn property by two-thirds vote in the same manner as municipal corporations.

Joint resolution providing for commission on labor in the Ohio penitentiary. Bills were introduced in the house as follows:

Making a chattel mortgage good for three years instead of one after filing. Providing that the county auditor may appoint a person to look after the enforcement of the Dow law.

Providing that township trustees convicted of misconduct in office shall be punished by losing the office and fined not to exceed \$500.

Exempting licensed druggists from jury duty.

Providing that idle convicts in the Ohio penitentiary shall be employed in paving streets inside the walls and appropriating \$1,500 for material.

Providing that railroads as well as shippers shall pay \$1 for demurrage after 48 hours.

Turkey's Latest Outrage.

LONDON, April 7.—The Daily News and The Chronicle have a report from Constantinople, said to be on the best authority, that an imperial irade has decreed the wholesale expulsion of all Christian missionaries from Armenia who are mainly French Catholics and American Protestants.

Fooled Them About the Prince.

NEW YORK, April 7.—The board of managers of the Thirteen club have preferred charges against Mr. A. L. Rawson, who, it is said, recently palmed off on the club what purported to be a letter from the Prince of Wales accepting honorary membership in the club, but which was in fact an altered letter declining that honor.

Democrats Gain in Michigan.

DETROIT, April 7.—The city and township elections in Michigan resulted in Democratic gains in many of the smaller cities, and in some cases in unexpectedly decisive Democratic victories in the larger cities. The townships, for the most part, retain their Republican majorities, although these are also cut down in a few cases.

Belmont's Gift to His Wife.

NEWPORT, R. I., April 7.—A transfer has been recorded whereby all the property of Mr. Oliver H. P. Belmont in this city and Middletown, including his \$500,000 stable and a farm representing a total value of nearly \$1,000,000, was made over to his wife, Mrs. Alva E. Belmont, formerly the wife of W. K. Vanderbilt.

Prizefighter Held For Grand Jury.

LAWRENCE, MASS., April 7.—Arthur Bradley, the Haverhill shoemaker, one of the principals in the fatal prizefight, has been bound over to the grand jury in \$2,500 on the charge of manslaughter, and \$2,000 on the charge of prizefighting. Those present were bound over in \$1,000 each.

Wealthy Girl Murdered.

TALBOTT, Ga., April 7.—Miss Sallie Emma Owen, a beautiful and wealthy young lady of this city, has been shot and instantly killed in the parlor of J. H. McCoy's residence by Dr. W. L. Ryder, a prominent dentist. He was jealous.

Shot by a Horsethief.

HUNTINGTON, W. Va., April 7.—Geo. Johnson, a special officer, has been fatally shot in the southern part of the this county while attempting to arrest a horsethief. The thief made his escape and a doc has gone in pursuit.

Doc Payne Easily Whipped.

NEW YORK, April 7.—Doc Payne of Cleveland was defeated by Dick O'Brien in the second round in the Eureka Athletic club. His seconds threw up the sponge after 2 minutes and 30 seconds fighting.

Close Vote at Louisville.

LOUISVILLE, April 7.—The McKinley and Bradley forces locked horns in the primaries for the selection of delegates to the Fifth congressional district Republican convention. The result is not yet known, the vote being close.

EAST LIVERPOOL, O., TUESDAY, APRIL 7.

UNION LABEL

For President,

WILLIAM MCKINLEY,

Of Ohio.

JOHN HALL.

John is a good citizen and a clever gentleman; but he was compelled to bear the burdens of the two "D's"—a Disreputable Democrat (?) and a Disgruntled Republican (?). They occupy prominent positions on the "Sobbing Maiden," and have inflicted incalculable injury upon the Democratic party, as men of clean hands and pure hearts will not train with them. John Hall was heard to say this morning, in tones of absolute disgust: "I'll be blamed if I believe there is any Democratic party in East Liverpool."

THE RESULT.

It was an uprising of the people, and the slaughter has been awful. Good men and true women have become sickened with the rottenness and corruption of party politics, as represented by men who have not loved the party but have loved the spoils, and have stooped to anything in order to secure position or control the machine. "You can fool all the people some of the time; you can fool some of the people all of the time; but you cannot fool all of the people all the time." True manhood, under God, will at times rise in its majesty, and then the men who lack in principle must stand from under. Thank God.

MRS. WHITEHEAD.

The NEWS REVIEW makes its bow to Mrs. Whitehead, and takes genuine pleasure in recording her victory over Will L. Smith. We do not desire to indulge in sarcasm at the expense of a fallen foe, but we cannot refrain from quoting John N. Taylor's words to this noble woman, a few days since, as he courteously and smilingly accosted her: "Mrs. Whitehead, I do not desire to be egotistic or boastful, and you will excuse me when I tell you that you will not be a member of the next school board." And only to think that the gallant colonel has the smallest number of votes of any candidate in the noted Third ward. As our Irish friend says: "A bird in the hand gathers no moss."

MAYOR GILBERT.

A. V. Gilbert has succeeded himself for the berth of the chief magistrate of the city, after a hot contest, on account of the various tickets in the field. Two years ago A. V. Gilbert promised to faithfully and conscientiously enforce the laws of the municipality if elected by the people, and he claims that he has kept that promise to the very best of his ability. His constituents are his judges, and they have decided the question in his favor, after one of the hottest contests ever known in this city. Personally, A. V. Gilbert has been courteous and gentlemanly to the management and attaches of the NEWS REVIEW, and has the very best wishes of this paper in his conduct of municipal affairs, in so far as he does his full duty, squarely and unflinchingly. He has the opportunity of making for himself an enviable reputation as the magistrate of this hustling pottery center for the next two years, and by the fearless enforcement of law, currying neither fear nor favor from any one, will have the respect and good wishes of all true and good citizens. In the performance of your full duty, Mayor Gilbert, the NEWS REVIEW doffs its hat to you and wishes you success and prosperity.

PRaise GOD.

"Praise God from whom all blessings flow." We use the quotation reverently and only because we are very glad that the opponents of the inspired word of God have received their just dues, despite the use of

money, influence and an element which is antagonistic to the Bible and the glorious public school system of this land of the free and home of the brave. The great fight was in the Third ward against John N. Taylor and Will L. Smith, the men who were the leaders in the dismissal of those two noble teachers, Misses Little and Jessop, because those dear ladies preferred principle to position, and dared, as every true Christian man and woman should, back their convictions with noble courage. This battle has been a gallant one, and to the Christian women of East Liverpool and the members of the various patriotic organizations, much of the credit is due for the glorious victory. Again, much credit is due to many men who are not professed Christians, but who love their children, their darling boys and girls, their wives and homes, and the prosperity of East Liverpool, and whom common sense teaches that the Bible is a grand helper to everything that is good and noble. Again, the Christian ministers of East Liverpool deserve great credit—those true men who brought Evangelist Schiverea and John G. Woolley into our midst and, under God, created a sentiment which has wrought out wondrous and lasting good for the city we love so well. This battle for the Bible has been heralded all over this great nation, and many hearts in many places will be made glad through the victory. "Praise God from whom all blessings flow."

HOW COMEDIAN CRANE WAS SNUBBED

He Gives a Young Actor Some Good Advice About Self Conceit.

A very young man who made a hit in a new play in this city called on William H. Crane one morning and in a very patronizing manner remarked that he would consider an offer to join the comedian's company. The actor greeted him very cordially, for he had always been a very nice, modest young man, but it was not long before the actor discovered that there was something the matter with his young friend. He held his head very high and showed certain unmistakable signs of being caddish. It did not take the actor long to see that the boy was suffering from the affliction known as "big head," and calling to his valet to shut the door from the outside he proceeded to do what he considered his duty.

"Look, here, my boy," said he, "you are suffering with worms. Now, don't start. Sit still till I get through. One bit doesn't make an actor any more than one swallow is going to make next summer. You remind me of myself when I was but a 'prentice hand. I got a chance to play a small part and accepted it. In my own valuable estimation I made the biggest kind of a hit in it. The morning after I walked around the lobby of the cheap hotel in which I was then proud to stop as happy as any lord. I wanted everybody to point me out as that bright young actor who made the big hit the night before.

"For a long time no one noticed me, and I could not understand it. Finally a sharp eyed man called me to him, which I thought was a strange proceeding, and asked me if I hadn't appeared in the show the night before. I was nearly tickled to death, for I had been discovered. I proudly replied that I had. 'First appearance?' he asked. 'Yes, sir,' I replied. 'What salary do you get?' was his next question. I told him that I got nothing just then, which was the truth. The inquisitive one shifted his cigar, looked me over very carefully for a minute, and turning on his heel said I was well paid. The reply nearly paralyzed me. I don't know but that I went up to my room and cried. The man took all the conceit out of me, and today he is my warmest friend. Get yourself back to earth now, and take my words in a kindly sense. None of us can afford to have big heads."

The young man left very angry, but next day wrote the actor a letter, apologizing for his conduct and thanking him for his advice.—New York Times.

THE ELECTIONS IN OHIO.

The Democrats Made Gains at Some Points.

FEW WOMEN WENT TO THE POLLS.

A Small Percentage Took Advantage of the Privilege of Voting For Members of School Boards—Some Women Candidates Elected Several Places.

CINCINNATI, April 7.—Exceptionally pleasant weather prevailed over Southern Ohio for the municipal and township elections. Many women voted for members of school boards, and some of that sex were elected, but the percentage of women voting was small. The returns show on the average Democratic gains over last fall, when the state gave its largest Republican plurality. No political issues were at stake anywhere outside of the political control of local affairs. Some towns and townships have gone Democratic for the first time since the presidential election of 1892.

At Lima, the Democrats elected Dr. S. A. Baxter, the neighbor and friend of Senator Brice, mayor, by 300, and the Republicans elected the rest of the city ticket and council.

At Greenville the Democrats made gains. There was no election in Cincinnati, but the suburban returns show Democratic gains over last November.

At Hamilton, the home of ex-Governor Campbell, the vote was 2,000 short, the Democrats electing everything except one assessor by average pluralities of 800.

At Urbana the Republicans carried all by a large margin.

At Warren, Elyria and Marysville the Republicans elected their entire ticket.

At Millersburg the Democrats elected their ticket on a very tight vote.

At Caldwell, a Republican stronghold, the Democrats elected the mayor and city clerk, the Republicans getting the rest of the ticket.

At Van Wert, for the second time in the history of that city, a Democratic mayor was elected by 150. The rest of the Republican ticket had an average plurality of 400.

The election in Cleveland was for a school director, three members of the school council and 11 members of the city council. But little interest was manifested in the contest and the vote was about one-third short of the usual poll at a municipal election. The Republicans elected all their candidates, with the exception of one member of the city council by pluralities of 7,000 and upwards. The Democrats will now have but three members of the city council out of 23, two of them being holdovers. The school council is solidly Republican.

The Republicans carried the city of Akron by a plurality 300 greater than a year ago, electing six members of the city council and five out of six members of the board of education.

The Democrats carried Sandusky, making gains over last spring.

At Fremont the Democrats made gains.

The Republicans won at Oberlin and Media, as usual.

At East Liverpool woman suffrage won. Recently the school board discharged teachers reading the Bible on opening school. The women employed carried and 2,400 votes were cast by women in the town, defeating all members of the school board who voted for the discharge of teachers who read the Bible.

At Massillon the Democrats elected the mayor by 172, the remainder of the ticket being divided.

At Alliance the Democrats reduced the usual Republican plurality of about 700 to less than 100 on all offices except mayor. The Republican candidate for mayor won by the usual margin.

A combination ticket was elected at Ashtabula, party lines being disregarded.

The Republicans won at Fostoria.

At Youngstown the Republican candidate for mayor was defeated by 225, because of the charge that he was affiliated with the A. P. A. The remainder of the Republican ticket was elected.

At Delaware the Republicans elected all their candidates with the exception of township clerk.

At Findlay the Republicans made a clean sweep, their candidate for mayor making a gain of 100 over the plurality last fall.

At Wapakoneta the Democrats elected J. J. Connaughton, mayor, and Adam Schaffer, treasurer, by 200 votes.

At South Charleston, the old home of Whitelaw Reid, the Democrats elected their first mayor and marshal. The place has been incorporated 60 years.

At Dayton Jacob Linkewiler, Democrat, was elected mayor by 5 votes, defeating General Sam B. Smith, Republican. The Republicans elected the rest of their ticket, except waterworks trustee, and secured control of council and school board.

At Chillicothe and Madisonville the Republicans and Democrats divided the tickets equally. At Circleville the Republicans made gains, electing 9 out of the 11 officers. At Troy, Piqua, Springfield, Findlay and London the Republicans elected their entire tickets. At Wooster the Republicans elected most of their ticket and the Democrats secured control of council. At Zanesville the Republicans suffered losses, but elected their city ticket by pluralities of less than 100 votes.

A RIVAL FOR A RAYS.

Parkersburg People Excited Over a Day Laborer's Invention.

PARKERSBURG, W. Va., April 7.—The invention of A. G. Davis of this state by which objects are distinctly seen when obstructions of various kinds are placed between them and the observer, is attracting a great deal of attention. The instrument is simply two boxes made of wood or glass one foot square, and standing 12 inches apart. About two inches from the top is a hole through each box. An object placed beyond the further box can be seen distinctly by an observer looking through the small hole in the other box.

Mr. Davis has experimented by placing iron, steel, brass, silver, flint, platinum, wood, paper, human and animal flesh, buckets of lard, oils, acids, large objects of all shapes and sizes between the boxes, and they have had no effect whatever, except in the case of silver, when a whiter and milder light is produced.

During a public exhibition of the contrivance a painter named Munday said he could stop the light, and placed a closed dinner bucket between the boxes. This is the first thing that has impeded the view. What the bucket contained has not yet been learned, but it was some chemical, and a very heavy weight, in the nature of an acid.

So intense has the interest become in this instrument that the owner, when giving the first exhibition, required three hours to go one square, so dense was the crowd. Policemen had to clear the street and the street cars were blocked.

Davis is a day laborer at the Parkersburg lumber mill. He was formerly a clockmaker, and has but little education.

LATTER DAY SAINTS.

Convention Being Held In an Old Mormon Temple at Kirtland, O.

KIRTLAND, O., April 7.—The annual conference of the reorganized church of Jesus Christ of Latter Day Saints, is in session here in the old Mormon temple, with a large attendance.

There are delegates present from Canada, California, Maine, Mississippi and from the intermediate points. There are four of the members of the original church. They are President Joseph Smith, Elder J. C. Clapp and Elder Albert Hovey from California and Alexander H. Smith.

The denomination claims to be the original church, established in 1830 by Joseph Smith, and out of which sprung the Mormon church of Utah under Brigham Young. The reorganized sect does not, nor never did, practice polygamy.

Alleged Checkraiser Arrested.

NEW YORK, April 7.—Detective Michael E. Nolan of Albany, assisted by Detective Butler, of Pinkerton's agency, acting for the American Bank association on a bench warrant, has arrested Daniel Beneycke alias "Big Dan," who is charged with having defrauded the National Commercial bank of Albany, on Nov. 14, 1892, with draft for \$1,600, which had been "raised" from \$16.

Harrity Calls a Meeting.

PHILADELPHIA, April 7.—Chairman Harrity of the Democratic national committee has called a meeting of the subcommittee having charge of the arrangements for the Democratic national convention. The meeting will be held at the Palmer House, Chicago, on Friday, April 10, at 2 p. m. Further progress is expected in the arrangements being made for the convention.

Some Negroes Refused Registration.

COLUMBIA, S. C., April 7.—Registration books have been opened throughout the state, under the provisions of the new constitution requiring a property or educational qualification for voting. A few negroes were refused, but a great majority were accepted. In the country districts the reverse will be true, as few of the negroes have any education.

Peru Pleased With Congress' Action.

LIMA, Peru, April 7.—The vote of the United States house of representatives on the question of Cuban belligerency was promptly bulletined. The greatest enthusiasm was manifested by the people over the house's action, and sympathy with the Cubans was very generally expressed.

Plotted to Abduct Vanderbilt.

SAN FRANCISCO, April 7.—George E. Gerd, late chief of the Southern Pacific company's detective service, says Anarchists had planned to hold up the Vanderbilt special train and abduct Cornelius Vanderbilt, and it has transpired that the officials of the Southern Pacific company blocked the game.

A Hanging in Montana.

HELENA, MONT., April 7.—William Biggerstaff, colored, has been hanged here for the murder of Richard Johnson, champion fighter of Montana. Biggerstaff was perfectly composed. His neck was broken and he was pronounced dead in eight minutes.

Dyert Likely to Be Freed.

WASHINGTON, April 7.—There is every reason to believe that Walter Dyert, the young American who has been held under arrest at Guines, Cuba, under suspicion of complicity in the revolution, will be a free man in a short time.

An Explosion at Piqua.

PIQUA, O., April 7.—The 100 horsepower boiler of the Orr Linseed Oil mill exploded, wrecking the east wall and damaging the whole structure. Loss, \$75,000. Three employees were slightly injured.

Bishop Ryan Seriously Ill.

BUFFALO, April 7.—Bishop Stephen Vincent Ryan of the Catholic diocese of Buffalo, is seriously ill and his physicians entertain but little hope of his recovery. He is about 70 years of age.

Election at Des Moines.

DES MOINES, April 7.—Late returns indicate that MacVicar, Republican, for mayor, was elected over Loomis, Democrat, by 1,000. The contest was largely on party grounds.

Will Be Consecrated May 1.

MARQUETTE, Mich., April 7.—Advices received here state that the date of consecration of Bishop G. Mott Williams has been fixed for May 1, and the place Detroit.

TRUE TO VOLUNTEERS.

Mrs. Booth-Tucker's Pleadings Proved Futile.

BALLINGTON BOOTH'S STATEMENT.

He and His Wife Say They Still Love Their Sister, but Nothing Will Swerve Them From Their Course—Met at Ballington's House.

NEW YORK, April 7.—The following statement has been made by Commander and Mrs. Ballington Booth in the headquarters of "The Volunteers": "We have met and had a long interview with our sister, Mrs. Booth-Tucker, and wish it most distinctly understood that our attitude is absolutely unchanged, and that our future plans for The Volunteers will go forward as heretofore stated.

"We are, however, anxious to have it clearly stated that this interview was of a sisterly and brotherly character, and that, apart from the matters of controversy on which we must still differ, there exists, as there always has, the warmest affection for Mrs. Booth-Tucker as a sister."

Commander and Mrs. Ballington Booth left for Chicago today, returning to this city late on Friday. Thursday they will address a mass meeting in the Auditorium, and on the following day they will receive the officers and soldiers of the Northwestern district who succeeded from the regular army last week.

The meeting took place in Ballington Booth's residence at Mont Clair, N. J., and besides the principals there was present Dr. McKelway of Philadelphia.

THE STATE LEGISLATURE.

A Number of Bills Introduced in Both House and Senate.

COLUMBUS, April 7.—A bill has been introduced in the senate providing for a tax on the manufacture of beer.

Other bills introduced in the senate were:

Giving to boards of trustees of benevolent institutions the authority to condemn property by two-thirds vote in the same manner as municipal corporations.

Joint resolution providing for commission on labor in the Ohio penitentiary. Bills were introduced in the house as follows:

Making a chattel mortgage good for three years instead of one after filing. Providing that the county auditor may appoint a person to look after the enforcement of the Dow law.

Providing that township trustees convicted of misconduct in office shall be punished by losing the office and fined not to exceed \$500.

Exempting licensed druggists from jury duty. Providing that idle convicts in the Ohio penitentiary shall be employed in paving streets inside the walls and appropriating \$1,500 for material.

Providing that railroads as well as shippers shall pay \$1 for demurrage after 48 hours.

Turkey's Latest Outrage.

LONDON, April 7.—The Daily News and The Chronicle have a report from Constantinople, said to be on the best authority, that an imperial irade has decreed the wholesale expulsion of all Christian missionaries from Armenia who are mainly French Catholics and American Protestants.

Foiled Them About the Prince.

NEW YORK, April 7.—The board of managers of the Thirteenth club have preferred charges against Mr. A. L. Rawson, who, it is said, recently palmed off on the club what purported to be a letter from the Prince of Wales accepting honorary membership in the club, but which was in fact an altered letter declining that honor.

Democrats Gain in Michigan.

DETROIT, April 7.—The city and township elections in Michigan resulted in Democratic gains in many of the smaller cities, and in some cases in unexpectedly decisive Democratic victories in the larger cities. The townships, for the most part, retain their Republican majorities, although these are also cut down in a few cases.

Belmont's Gift to His Wife.

NEWPORT, R. I., April 7.—A transfer has been recorded whereby all the property of Mr. Oliver H. P. Belmont in this city and Middletown, including his \$500,000 stable and a farm representing a total value of nearly \$1,000,000, was made over to his wife, Mrs. Alva E. Belmont, formerly the wife of W. K. Vanderbilt.

Prizefighter Held For Grand Jury.

LAWRENCE, MASS., April 7.—Arthur Bradley, the Haverhill shoemaker, one of the principals in the fatal prizefight, has been bound over to the grand jury in \$2,500 on the charge of manslaughter, and \$2,000 on the charge of prizefighting. Those present were bound over in \$1,000 each.

Wealthy Girl Murdered.

TALBOTTON, Ga., April 7.—Miss Sallie Emma Owen, a beautiful and wealthy young lady of this city, has been shot and instantly killed in the parlor of J. H. McCoy's residence by Dr. W. L. Ryder, a prominent dentist. He was jealous.

Shot by a Horsethief.

HUNTINGTON, W. Va., April 7.—Geo. Johnson, a social officer, has been fatally shot in the southern part of the city while attempting to arrest a horsethief. The thief made his escape and a posse has gone in pursuit.

Doc Payne Easily Whipped.

NEW YORK, April 7.—Doc Payne of Cleveland was defeated by Dick O'Brien in the second round in the Eureka Athletic club. His seconds threw up the sponge after 2 minutes and 30 seconds fighting.

Close Vote at Louisville.

LOUISVILLE, April 7.—The McKinley and Bradley forces locked horns in the primaries for the selection of delegates to the Fifth congressional district Republican convention. The result is not yet known, the vote being close.

CUBA SHALL BE FREE.

Resolutions Presented to the President Today.

REPORT OF ACTION IS DESIRED.

The House Passed Them by a Vote of 244 to 27. The President May Wait for Some Months Until He Makes a Move—News of Washington.

WASHINGTON, April 7.—The Cuban resolutions were officially brought to the attention of the president today by the secretary of the senate who presented him with an enrolled copy of the document. Ordinarily concurrent resolutions are not forwarded to the president, as they do not require his signature, but these resolutions were laid before him as the Armenian resolutions were because they express the opinion that he should tender the offices of the United States to Spain for the recognition of Cuban independence, and are therefore a direct appeal to him in so far as congress can direct the president in such a proceeding.

The house adopted the conference report on the Cuban resolutions by a vote of 244 to 27. Eighteen Republicans and nine Democrats voted against the report. After the most determined opposition of those opposed to the recognition of the insurgents in the senate and house there were but ten more votes against the report than against the original resolutions. The former vote was 262 to 17.

By its action the house agreed to the senate resolutions and disposed of the Cuban question for the present. Those resolutions were as follows: Resolved, That in the opinion of congress a condition of public war exists between the government of Spain and the government of Cuba, and that the United States of America should maintain a strict neutrality between the contending powers, according to each all the rights of belligerents in the ports and territory of the United States.

Resolved further, That the friendly offices of the United States should be offered by the president to the Spanish government for the recognition of the independence of Cuba.

Those who voted in the negative were as follows:

Republicans—Messrs. Arnold of Rhode Island, Atwood, Black of New York, Boutelle, Daniels, Draper, Gillet of New York, Gillet of Massachusetts, Grout, Lefevre, McCall of Massachusetts, Moody, Poole, Sampson, Wadsworth, Walker of Massachusetts, Walker of Virginia, Wright—18.

Democrats—Berry, Black of Georgia, Calhoun, Elliott, Elliott, Lockhart, Tucker, Turner of Georgia, Taylor—9.

Senator DeLoach of Maine, the Spanish minister here, was too busy to receive reporters wishing to ascertain what he proposed to do as a result of the action of the house in adopting the conference report upon the Cuban resolutions. Probably his course will depend entirely upon the attitude to be assumed by the president toward the subject.

The course of the president is purely a matter of speculation. Since the transmission to congress last February of the correspondence relative to Cuba much matter has accumulated at the department of state bearing on the latter phases of the struggle. For prudential reasons these reports have been withheld even from congress, and so it is not possible to learn whether or not the state of facts as set out therein is such as to warrant any change in the attitude toward the revolution the president assumed and defined in his annual message to congress. The tests he laid down in the message, which the revolutionists must fulfill, remain unchanged, so far as can be gathered.

Relative to the extension of his good offices toward bringing about independence, it is entirely possible that the president may find it within his inclination and disposition to move in that direction as far as he can safely, for he is on record in his message as deprecating the continuance of the present "cruel and bloody" war on the island. However, in either case the president is not under the present necessity of deciding whether he will act, and how upon the resolutions, and as the rainy season is about to begin in Cuba, putting a stop to all military operations for five months, it may be that the president will decide to wait further during the enforced truce before acting himself in the matter.

Senator Gonzalo de Quesada, the secretary of the Cuban delegation here is exultant over the receipt from Europe, through the newspapers and otherwise to the effect that the Spanish government is in great straits to raise money to prolong the war. He said the Bank of France and had refused to advance Spain any more money in addition to \$10,000,000 already advanced and this had driven Spain to the doubtful expedient of calling upon her own citizens for help. He doubted the success of the appeal. Then Spain was under obligations to repay the \$10,000,000 loan to the Bank of France before June next, making payment of one-half before the 5th of next month. Otherwise she would forfeit the collateral she had put up, a heavy blow for her. According to Quesada, the Spanish people are getting very restive under Weyler's failures in Cuba.

CRITICIZED BY SENATORS.

The Postoffice Bill Causes Sharp Talk in the Senate.

WASHINGTON, April 7.—The senate spent the entire session on the postoffice appropriation bill, but did not complete it. The bill served to bring out some sharp criticisms by Senators Gorman of the administration of the postoffice department, and by Senator Allen on alleged irregularities resulting from the civil service system.

Mr. Allen repeated sensational charges as to the large money contributions said to have been made in the interest of Mr. Cleveland and Mr. Harrison. The charge that Mr. Wanamaker contributed \$400,000 toward Mr. Harrison's election led to an emphatic denial from Mr. Hawley. Mr. Allen alluded to the president as "his majesty" and as the chief mugwump of the country.

Condition of the Treasury.

WASHINGTON, April 7.—The treasury has lost \$152,400 in gold coin and \$16,700 bars, which leaves the true amount of the gold reserve, \$127,916,878.

A BLOW AT FILLED CHEESE.

Bill Reported to Tax Manufacturers and Brand the Product.

WASHINGTON, April 7.—Representative Grosvenor of Ohio has reported from the committee on ways and means a bill to tax and brand "filled cheese." The bill provides for a tax of \$400 upon manufacturers, \$250 upon wholesale merchants and \$40 upon retailers. It prescribes that the cheese must be packed in wooden boxes and sold from the original packages, and when so sold shall be enclosed in a wrapper bearing the brand. Each cheese must also be branded conspicuously upon each side.

The report states that "filled cheese" is manufactured by the extraction from milk of butter fat, and the substitution of what is known as "neutral lard." The committee found that a large proportion of this cheese is branded and sold as a high grade genuine article. "The claim is made," says the report, "and we sustain it that it is a fraud upon the purchaser to sell him a manufactured article branded falsely or unbranded."

The manufacture of this article, it is said, has increased largely in recent years, and has had a detrimental effect upon our European markets.

A minority report signed by three Democratic members holds that there is no single out "filled cheese" which is not known to be detrimental to the health and tax its manufacturers even were it proper to suppress its manufacture a resort to taxation for this purpose, the minority report says, is an abuse of power. No objection would be made to its being branded for interstate commerce only.

THE RIVER AND HARBOR BILL.

It Passes the House After a Hot Assault by Enemies.

WASHINGTON, April 7.—The river and harbor bill has passed the house by a vote of 216 to 40.

The river and harbor bill carries in actual appropriations \$10,330,500, and authorizes contracts for 32 new projects with a limit of cost of \$51,721,210. Only 40 minutes' debate was allowed. Mr. Hooker, chairman of the river and harbor committee, attempted to secure an extension of this time, but first Mr. Maguire (Dem., Cal.) and then Mr. Grosvenor (Rep., O.) objected. The debate was very spirited. Mr. Dockery (Dem., Mo.) attacked the recklessness with which it was proposed to extend the "continuing contract" system, in bill—a natural result, he claimed, of the policy of giving the governments promise to pay instead of paying cash.

He admitted, however, the great economy of the contract system, which Mr. Burton (Rep., O.) had stated from official reports to be 30 per cent. Mr. Hepburn (Rep., Ia.) also made a vicious onslaught on the bill, which, he said, was "a piece of pork" in which to insure its passage. He devoted himself to particularly the Mississippi river commission, the work of which he denounced. This brought forth a reply from Mr. Catches, the former chairman of rivers and harbors, and a defense of the measure from Mr. Hooker (Rep., N. Y.), the present chairman. When the vote was finally taken, the majority in favor of it was so overwhelming that its opponents were unable to secure the yeas and nays.

Minister Terrell in Washington.

WASHINGTON, April 7.—Mr. Terrell, United States minister at Constantinople, has arrived in Washington and reported his arrival at the state department. He had a long interview with Assistant Secretary Adams, who has been specially charged with the conduct of the diplomatic work of the department, including Turkey, and described to him at length the conditions existing in Turkey when he left that country. Later he saw Secretary Olney. He expects to remain in Washington for a few days.

Naval Chaplain Becomes a Catholic.

WASHINGTON, April 7.—Chaplain Frederick F. Sherman, United States navy, for some years a member of the Episcopal church, has resigned from the navy, and has been received into the Catholic church by the Jesuit fathers of Georgetown college in this city. He was confirmed by Cardinal Satolli.

Two Women Asphyxiated.

CARMEL, N. Y., April 7.—Mr. Hart Curry of Baldwin place has found his mother and a young negro asphyxiated in her residence near Lake Mahopac. They were asphyxiated by the coal gas from the stove. The negro had been badly eaten about the face by rats. The deceased was 70 years of age and wealthy.

A Prizefight Stopped.

BUFFALO, N. Y., April 7.—Police Superintendent Bull has notified the officials of the Empire Athletic club that the proposed fight between James Daly of Buffalo and Joe Dunfee of Syracuse, scheduled to take place May 14, must not be held.

The Weather.

PITH OF THE NEWS.

The ministers of Trenton, N. J., have begun to wage a spirited fight for the enforcement of the Sunday saloon closing act and a reduction in the number of saloons.

Peter Ester, a farm hand near New Brunswick, N. J., put a lighted cigar in his pocket and was so badly burned he died shortly afterward.

It was reported in London that a treaty of alliance has been concluded between England and Spain.

HE CRACKS A WHIP.

But He is a Phenomenal Artist in the Use of the Lash.

A decided sensation has been created in Vienna by a man who probably stands alone in the world in his particular line of performance. This gentleman's name is Plisking, and he is an Austro-Hungarian by birth. He is an expert, or rather, a phenomenal artist, in the use of the whip.

The first thing he does is to take a long lashed, stout handled whip in each hand, and, with orchestral accompaniment, proceed to crack or snap them at a terrific rate. The sound made by his whips in this manner is graduated from a noise like a rifle report to the soft click of a billiard ball. It makes a curious sort of music and serves to show how he can regulate the force of each stroke.

More interest, however, is evinced when he seizes a vicious looking whip with an abnormally long lash. It is provided with a very heavy handle of medium length. This is his favorite toy, and what he can do with it is really wonderful. He first gives an idea of what fearful force there lies in a whip lash in the hands of an expert.

A large frame, over which is stretched a calf or sheep skin, is brought on the stage. This is marked with dots of red paint. The man with the whip steps up, and, swinging the lash round his head, lets fly at the calf skin. With every blow he actually pulls a piece right out from the leather, leaving a clean cut hole.

These pieces are distributed among the audience to show that there is no trickery about the performance. After this he takes a frame with three shelves. On these there are a dozen or more of medium sized apples lying very close together and provided with large numbers. Any one in the audience may designate which apple he wishes struck, and the unerring lash snatches it out like a flash.

A still more difficult feat is the snapping of coins from a narrow necked bottle. A piece of silver about the size of half a crown is put over the cork of the bottle, which stands on the edge of a table. The whip artist, without appearing to take any sort of aim, sends the long lash whizzing through the air and picks off the coin without jarring the bottle, much less breaking it.—Vienna Letter.

She Didn't Want Them to Fight.

I was going along a bridge path in West Virginia when I heard a young man and a young woman talking earnestly:

"I don't want you all to fight," said the girl.

"But you've promised to marry the one that whopped," remonstrated her escort.

"I don't care. I didn't think no way."

"Well, maybe neither of us'll get shot."

"I don't care."

"If one got killed, you'd marry the other?"

"Yas."

"An if both got killed that's plenty more wants you."

"Yas; that's Sam, an I think a heap of Sam. But that ain't it. S'posin one gits killed and t'other gits crippled so he kaint tote water from the spring. You've both done promised to tote the water if I marry you. Kaint you all play keards, for I kaint abide to marry a cripple nohow, an I'd be bound if you all had the fount."

"Well, I'll see Tom, but I'm afraid he kin beat me at keards, but I kin outshoot him sho'."—Philadelphia Times.

OLD BIRDS' NESTS.

Many Feathered Creatures Use the Same Ones Year After Year.

"That common expression for worthlessness, 'It has no more value than a last year's bird's nest,'" said a bird fancier to a New York Press reporter, "is often far from correct. The majority of our birds do leave their nests after raising a brood, but many do not, and their nests are used through a succession of years. I have known some birds to use their nests ten years in succession, and so persistent are they that many times the female will return even after the nest has been robbed and the mate killed. Among these wrens, some of the swallow family, bluebirds, great crested flycatchers, some of the owls, eagles, chickadees and some woodpeckers.

"They repair to the nest each year and often build it over. A little wren has made its nest in a hole in a tree in my garden and has occupied it for the last eight years. Each year it has piled on new stuff till the hole is almost filled up. Some say that as soon as it becomes crowded the birds will clean it out. I know of a bluebird's nest that has been occupied for several years. It is the same female year after year, for she has two back wing feathers and is lame.

"Birds that build in exposed situations, like hangbirds, always build anew each season, and some others build anew for every brood. Some never build. They either lay in the nests of other birds or in the sand. The eagle and the owl make a framework of sticks and slight repairs are needed. Many birds' nests that you find have never been used. For instance, the marsh wren builds several with the idea that in the case of disturbance the male will attract attention to the nests other than that in which the female is brooding and so shield her from enemies."

CUBA SHALL BE FREE.

Resolutions Presented to the President Today.

THE HOUSE PASSED THEM BY A VOTE OF 244 TO 27. THE PRESIDENT MAY WAIT FOR SOME MONTHS UNTIL HE MAKES A MOVE.—News of Washington.

WASHINGTON, April 7.—The Cuban resolutions were officially brought to the attention of the president today by the secretary of the senate who presented him with an enrolled copy of the document. Ordinarily concurrent resolutions are not forwarded to the president, as they do not require his signature, but these resolutions were an exception, as they express the opinion that he should tender the aid of the United States to Spain for the recognition of Cuban independence, and are therefore a direction to him in so far as congress can direct the president in such a proceeding.

The house adopted the conference report on the Cuban resolutions by a vote of 244 to 27. Eighteen Republicans and nine Democrats voted against the report. After the most determined opposition of those opposed to the recognition of the insurgents in the senate and house there were but ten more votes against the report than against the original resolutions. The former vote was 262 to 17. By its action the house agreed to the senate resolutions and disposed of the Cuban question for the present. Those resolutions were as follows:

Resolved, That in the opinion of congress a condition of public war exists between the government of Spain and the government proclaimed and for some time maintained by force of arms by the people of Cuba, and that the United States of America should maintain a strict neutrality between the contending parties according to each all the rights of belligerents in the ports and territory of the United States.

Resolved further, That the friendly offices of the United States should be offered by the president to the Spanish government for the recognition of the independence of Cuba.

Those who voted in the negative were as follows:—

Republicans—Messrs. Arnold of Rhode Island, Atwood, Black of New York, Boutelle, Daniels, Draper, Gillet of New York, Gillet of Massachusetts, Grout, Lefevre, McCall of Massachusetts, Moody, Poole, Simpson, Wadsworth, Walker of Massachusetts, Walker of Virginia, Wright—18.

Democrats—Berry, Black of Georgia, Culberson, Elliott, Elliott, Lockhart, Tucker, Turner of Georgia, Taylor—9.

Senator De Lome, the Spanish minister here, was too busy to receive reporters wishing to ascertain what he proposed to do as a result of the action of the house in adopting the conference report upon the Cuban resolutions. Probably his course will depend entirely upon the attitude to be assumed by the president toward the subject.

The course of the president is purely a matter of speculation. Since the transmission to congress last February of the correspondence relative to Cuba much matter has accumulated at the department of state bearing on the latter phases of the struggle. For prudential reasons these reports have been withheld even from congress, and so it is not possible to learn whether or not the state of facts as set out therein is such as to warrant any change in the attitude toward the revolution in its annual message to congress. The texts he laid down in the beginning, which the revolutionists must fulfill, remain unchanged, so far as can be gathered.

Relative to the extension of his good offices toward bringing about independence, it is entirely possible that the president may find it within his inclination and disposition to move in that direction as far as he can safely, for he is on record in his message as deprecating the continuance of the present "cruel and bloody" war on the island. However, in either case the president is under the present necessity of deciding whether he will act, and how upon the resolutions, and as the rainy season is about to begin in Cuba, putting a stop to all military operations for five months, it may be that the president will decide to wait further during the enforced truce before acting himself in the matter.

Senator Gonzalo de Quesada, the secretary of the Cuban delegation here is exultant over the receipt from Europe, through the newspapers and otherwise to the effect that the Spanish government is in great straits to raise money to prolong the war. He said the Bank of France had refused to advance Spain any more money in addition to \$10,000,000 already advanced and this had driven Spain to the doubtful expedient of calling upon her own citizens for help. He doubted the success of the appeal. Then Spain was under obligations to repay the \$10,000,000 loan to the Bank of France before June next, making payment of one-half before the 5th of next month. Otherwise she would forfeit the collateral she had put up, a heavy blow for her. According to Quesada, the Spanish people are getting very restive under Weyler's failures in Cuba.

CRITICIZED BY SENATORS.

The Postoffice Bill Causes Sharp Talk in the Senate.

WASHINGTON, April 7.—The senate spent the entire session on the postoffice appropriation bill, but did not complete it. The bill served to bring out some sharp criticisms by Senators Gorman on the administration of the postoffice department, and by Senator Allen on alleged irregularities resulting from the civil service system.

Mr. Allen repeated sensational charges as to the large money contributions said to have been made in the interest of Mr. Cleveland and Mr. Harrison. The charge that Mr. Wanamaker contributed \$400,000 toward Mr. Harrison's election led to an emphatic denial from Mr. Hawley. Mr. Allen alluded to the president as "his majesty" and as the chief mugwump of the country.

Condition of the Treasury.

WASHINGTON, April 7.—The treasury has lost \$123,400 in gold coin and \$10,700 bars, which leaves the true amount of the gold reserve, \$127,916,878.

A BLOW AT FILLED CHEESE.

Bill Reported to Tax Manufacturers and Brand the Product.

WASHINGTON, April 7.—Representative Grosvenor of Ohio has reported on the committee on ways and means a bill to tax and brand "filled cheese." The bill provides for a tax of \$400 upon manufacturers, \$250 upon wholesale merchants and \$40 upon retailers. It prescribes that the cheese must be packed in wooden boxes and sold from the original packages, and when so sold shall be enclosed in a wrapper bearing the brand. Each cheese must also be branded conspicuously upon each side.

The report states that "filled cheese" is manufactured by the extraction from milk of butter fat, and the substitution of what is known as "neutral lard." The committee found that a large proportion of this cheese is branded and sold as a high grade genuine article.

"The claim is made," says the report, "and we sustain it that it is a fraud upon the purchaser to sell him a manufactured article branded falsely or unbranded."

The manufacture of this article, it is said, has increased largely in recent years, and has had a detrimental effect upon our European markets.

A minority report signed by three Democratic members holds that it is unjust to single out "filled cheese" which is not known to be detrimental to the health and tax its manufacturers even were it proper to suppress its manufacture. The minority report says, is an abuse of power. No objection would be made to its being branded for interstate commerce only.

THE RIVER AND HARBOR BILL.

It Passes the House After a Hot Assault by Enemies.

WASHINGTON, April 7.—The river and harbor bill has passed the house by a vote of 216 to 40.

The river and harbor bill carries in actual appropriations \$10,330,500, and authorizes contracts for 32 new projects with a limit of cost of \$51,731,210.

Only 40 minutes' debate was allowed. Mr. Hooker, chairman of the river and harbor committee, attempted to secure an extension of this time, but first Mr. Maguire (Dem., Cal.) and then Mr. Grosvenor (Rep., O.), objected. The Grosvenor (Rep., O.) attacked the recklessness (Dem., Mo.) which was proposed to extend the "continuing contract" system, in bill—a natural result, he claimed, of the policy of giving the governments promise to pay instead of paying cash.

He admitted, however, the great economy of the contract system, which Mr. Burton (Rep., O.) had stated from official reports to be 30 per cent. Mr. Hepburn (Rep., Ia.) also made a vicious onslaught on the bill, which, he said, had enough "pork" in it to ensure its passage. He devoted himself to particularly the Mississippi river commission, the work of which he denounced.

This brought forth a reply from Mr. Catchings, the former chairman of rivers and harbors, and a defense of the measure from Mr. Hooker (Rep., N. Y.), the present chairman. When the vote was finally taken, the majority in favor of it was so overwhelming that its opponents were unable to secure the yeas and nays.

Minister Terrell in Washington.

WASHINGTON, April 7.—Mr. Terrell, United States minister at Constantinople, has arrived in Washington and reported his arrival at the state department. He had a long interview with Assistant Secretary Ade, who has been specially charged with the conduct of the branch of the diplomatic work of the department, including Turkey, and described to him at length the conditions existing in Turkey when he left that country. Later he saw Secretary Olney. He expects to remain in Washington for a few days.

Naval Chaplain Becomes a Catholic.

WASHINGTON, April 7.—Chaplain Frederick F. Sherman, United States navy, for some years a member of the Episcopal church, has resigned from the navy, and been received into the Catholic church by the Jesuit fathers of Georgetown college in this city. He was confirmed by Cardinal Satolli.

Two Women Asphyxiated.

CARMEI, N. Y., April 7.—Mr. Hart Curry of Baldwin place has found his mother and a young negro asphyxiated in her residence near Lake Mahopac. They were asphyxiated by the coal gas from the stove. The negro had been badly eaten about the face by rats. The deceased was 70 years of age and wealthy.

A Prizefight Stopped.

BUFFALO, N. Y., April 7.—Police Superintendent Bull has notified the officials of the Empire Athletic club that the proposed fight between James Daly of Buffalo and Joe Dunfee of Syracuse, scheduled to take place May 14, must not be held.

A decided sensation has been created in Vienna by a man who probably stands alone in the world in his particular line of performance. This gentleman's name is Plaskug, and he is an Austro-Hungarian by birth. He is an expert, or, rather, a phenomenal artist, in the use of the whip.

The first thing he does is to take a long lashed, stout handled whip in each hand, and, with orchestral accompaniment, proceed to crack or snap them at a terrific rate. The sound made by his whips in this manner is graduated from a noise like a rifle report to the soft click of a billiard ball. It makes a curious sort of music and serves to show how he can regulate the force of each stroke.

More interest, however, is evinced when he seizes a vicious looking whip with an abnormally long lash. It is provided with a very heavy handle of medium length. This is his favorite toy, and what he can do with it is really wonderful. He first gives an idea of what fearful force there lies in a whip lash in the hands of an expert.

A large frame, over which is stretched a calf or sheep skin, is brought on the stage. This is marked with dots of red paint. The man with the whip steps up, and, swinging the lash round his head, lets fly at the calveskin. With every blow he actually pulls a piece right out from the leather, leaving a clean cut hole.

These pieces are distributed among the audience to show that there is no trickery about the performance. After this he takes a frame with three shelves. On these there are a dozen or more of medium sized apples lying very close together and provided with large numbers. Any one in the audience may designate which apple he wishes struck, and the unerring lash snatches it out like a flash.

A still more difficult feat is the snapping of coins from a narrow necked bottle. A piece of silver about the size of half a crown is put over the cork of the bottle, which stands on the edge of a table. The whip artist, without appearing to take any sort of aim, sends the long lash whizzing through the air and picks off the coin without jarring the bottle, much less breaking it.—Vienna Letter.

NEW YORK, April 7.—A settlement of the trouble by the Metropolitan Street Railway company and its 5,000 employees, who threaten to go out on strike unless ten discharged men are reinstated, has not yet been reached.

To Command the Volunteers.

CLEVELAND, April 7.—A telegram received here from Ballington Booth directs that Captain Mahlon Johnson be placed in charge of the newly-formed Cleveland corps of The Volunteers.

LOCAL BREVITIES.

Squire Morley is some better today, but is still in a precarious condition.

The Lotus club and their friends will dance at Brunt's hall this evening.

Reverend Slayter preached to a large audience at the Christian church last night.

The household effects of William H. Cartwright arrived here from Leetonia this morning.

Charles K. Tarr left Atlanta, Ga., bound for this place today. He will arrive home in a few days to remain for an indefinite period.

There was a heavy influx of drummers in the city yesterday. Twenty-five arrived here from Pittsburg and put up at a local hotel.

John Lewis secured judgment against Mrs. Robert Chisholm in a forcible detention case in Squire Manley's court yesterday morning.

The river is slowly falling and navigation is somewhat quieter today. The packets continue to run with usual regularity, and traffic remains fair.

The Literary and Aid society of St. Aloysius' church are making preparations to hold a social, the proceeds of which will be added to the fund being raised for the purchase of a pipe organ.

Miss Brookes, telegraph operator at the local Western Union office, who has been suffering from a severe attack of neuralgia and sore throat, is recovering, and will be on duty in a few days.

In giving the report of the Easter services yesterday, we were misinformed as to the name of the gentleman who sang at the First M. E. church. His name is T. D. Thomas, instead of Johnson.

Charles Wassignay secured a position with the bridge company and started to work this morning. While engaged in removing a large stone it fell and caught one of his fingers, mashing it badly.

A number of people of this city tried to secure tickets for Henry Irving and Miss Ellen Terry, at the Alvin tonight, in Pittsburg, but only succeeded in securing three tickets, and put up \$3 each for them.

The case of Dr. J. J. Ikirt versus Mrs. Hannah Wylie, which was to have been heard in Manley's court yesterday morning, was postponed in order that testimony might be had from parties living in Pittsburg.

Superintendent Andrews was experimenting with the block signal system this morning, and the result was eminently satisfactory. The completion of the entire system over the line now is only a question of a few days.

Mr. Wade, while working in Golding's stone quarry yesterday, had the fingers of his right hand badly mangled by the fall of a heavy stone. The wounds were dressed, but it will be several weeks before he can resume work.

Two young bloods went to Wellsville Sunday and hired a turnout. The horses were unused to working together, and persisted in going in different directions, to the delight of the pedestrians and the discomfiture of the boys.

Horace Andrews, president of the Consolidated electric street car line of Cleveland, accompanied by L. A. Russell and Secretary A. J. Davies, of the East Liverpool and Wellsville electric street car line, will arrive here tomorrow, to consult with Superintendent Andrews on business affairs.

The following vestry was appointed at the Easter meeting of St. Stephen's church: Senior warden, George Marshall; junior warden, Henry Stoddard; treasurer, John Taylor; secretary, A. Underwood; vestrymen, William Baggott, Samuel Frost, William Wimple, Christian Horton. The new vestry will serve for a period of one year.

The habit of racing that is indulged in on the principal thoroughfares by the owners of fast horses should be stopped by the police, and the sooner the better. Almost every night Fifth and Sixth streets are turned into race tracks, and it requires a great amount of watchfulness to manage to cross one of these streets without being run down.

The seventh anniversary of the Mission league of the German Lutheran church will be observed tomorrow evening at 7:30 o'clock at the church. Rev. R. M. Smith, of Baden, Pa., will be present, and preach the anniversary sermon. The address will be delivered in English. A cordial invitation is extended to all to be present.

The wife of a man who resides near the Knowles china works left him a few days since because he persisted in bringing several boon companions to his home, and all together keep up nightly carousals by drinking and card playing. The wife is a consistent Christian and remonstrated with her husband because of this unbecoming conduct. He then told her that if she did not like it to get up and leave. Continuing to act in this manner, she left him and returned to the home of her parents.

FROM LISBON.

Robert Hall Brings Action Against T. R.
Bradshaw and Others.

Special to the News Review.

LISBON, April 6.—Robert E. Hall to-
day entered suit against Theodore R.
Bradshaw, Annie M. Rigley and the
Potter's Building and Savings com-
pany to close a mechanic's lien on lot
No. 3305 in Bradshaw's addition. The
plaintiff claims \$298.33 due for work
done and material furnished in repair-
ing the A. W. Serran house, located on
the above property.

The Victor Stove company, of Sa-
lem, entered suit last evening against
Sam W. Utter for the payment of two
promissory notes for \$500 each, and
payable at the Fulton bank, of Brook-
lyn.

Marriage licenses were issued to
Peter Simon and Mary E. Wilhelm,
James W. Hanney and Ella M. Lanza.
Judge Smith opened court today
and gave Mrs. Charlotte Mount,
of Wellsville, a divorce from
James D. Mount, on the grounds of
habitual drunkenness and neglect.
The case was not contested.

The cases assigned for today, all
being continued until the next term
of court, the jury was dismissed until
tomorrow morning, when the case of
Samuel F. Caskey versus Mabel Fred-
erick will probably be tried.

The Kirkbride cases of Salem,
which are assigned for Thursday, will
be the chief matters of interest this
week and will go to trial with a large
number of witnesses.

THE HAND OF FATE.

It Intervenes and Ousts Anti-Bible Can-
didates.

Some time ago the patriotic orders
of the city sent resolutions to the
board of education, asking that each
teacher be instructed to read the
Bible to her scholars in the public
schools. This was signed by the
Junior Mechanics, Senior Mechanics,
Sons of America, Daughters of Liberty
and Daughters of America. The res-
olution was considered and the board
refused to grant the request, cit-
ing a number of instances
where this plan would be detrimental
to the interest of our public school
system, and claiming that they had
consulted the highest educational au-
thorities on the matter. There was
but one member of the board loyal to
her constituents, Mrs. Whitehead, she
standing by the Bible from start to
finish, never deviating from the
standpoint she had taken. Today she
is the only member of the old board
who has the opportunity to again oc-
cupy her place in the board of edu-
cation, while those who opposed the Bi-
ble can take a back seat and watch
the new board handle the reins. "The
mills of the gods grind slowly," etc.

EARLY MORNING FIRE.

Spontaneous Combustion Supposed to Be
the Cause.

About 2 o'clock this morning an
alarm was turned into the central sta-
tion by telephone, notifying the de-
partment that the house of George
Woodruff, of Second street, was
ablaze. The company lost no time in
responding, and extinguished the fire
with the Babcocks. The fire origi-
nated in a washstand among a lot of
clothing and the only theory that is
given for the cause is spontaneous
combustion. The only damage is the
loss of the clothing and washstand.
The fire company were almost suffo-
cated by the smoke from the burning
clothes and had to rush to the win-
dows at intervals to get fresh air. One
of the firemen had a finger badly
burned. The alarm was turned in
from the residence of H. L. Simms,
who thinks the family telephone sys-
tem a good one in case of fire, as some
parties have to go quite a distance to
turn in an alarm.

CAPTURED IN STEUBENVILLE.

Two Fellows Arrested in Steubenville for
Stealing a Skiff From This City.

Edward Jackson and William Wil-
liams are the names given by two in-
dividuals who were arrested in Steu-
benville yesterday and brought to this
city by Officer Earl this morning,
charged with larceny.

The pair, it is alleged, stole a skiff
from Isaac Riley, of this city, and
rowed it to Steubenville. Riley
followed to the latter city and caught
them in the act of disposing of their
stolen property. An officer was called
and the twain placed under arrest.

Riley returned to this city and
preferred the above charge against the
men, and had them brought here for
trial. It is thought that the names
given are fictitious ones. The prison-
ers will probably be arraigned tomor-
row.

Closes Saturday. Book auction April 11.

Hospital Association.

The women's hospital association
will meet in the Young Men's Chris-
tian association auxiliary rooms to-
morrow afternoon, at 2:30. Very im-
portant business will receive attention
and the president desires that every
lady interested shall be in attendance.
The object is a good one and worthy
of full consideration.

HE WAS THERE.

A Party of Drummers Discuss the De-
merits of a Hotel.

While a circle of commercial
travelers were discussing the merits
and demerits of a number of hostleries
of the country in a local hotel the
other day, they confined their remarks
to one particular hostelry in a nearby
town. When they had finished heap-
ing volumes of imprecations on the
head of the proprietor of the hotel in
question, condemning the cuisine and
general accommodations, they noticed
a man looking rather ill leave the ho-
tel. When the man had gotten be-
yond reach of the conversation, the
clerk informed the drummers that he
was the proprietor of the hotel, much
to their embarrassment. No doubt
the proprietor will take his cue and
devote his time to arranging more
commodious quarters.

AFTER MORE MEN.

The Present Force at Ellwood to be In-
creased.

S. J. Prudens, who is superintend-
ing the quarrying of stone for the
bridge piers at Ellwood City, arrived
here this morning for the purpose of
hiring more men for the work. The
present daily output is 15 car loads of
stone, and with the increased force
the output will be much greater.

C. A. White, of Beaver Falls, a re-
presentative of the company having in
charge the construction of the iron
work of the bridge, is in the city
arranging in detail the outline of work
to be commenced soon.

Will Take Action.

The directors of the Young Men's
Christian association will meet to-
night and settle as to whether they
will purchase the George building.
This deal has been hanging fire for
some time past, and up to the present
time nothing definite has been done.

Among the Sick.

Dr. O. D. Shay is confined to his
home by illness.

Hal Huston is suffering from an at-
tack of the grip.

Convalescing.

Miss Mary Murray, of the West
End, is convalescing from an attack
of typhoid fever.

The Bell Tapped.

Owing to the wires becoming crossed
on Thompson's hill this afternoon,
the big bell at the city hall tapped.

Those who never read the advertise-
ments in their newspapers miss more
than they presume. Jonathan
Kenison, of Bolan, Worth company,
Iowa, who had been troubled with
rheumatism in his back, arms and
shoulders, read an item in his paper
about how a prominent German citi-
zen of Ft. Madison had been cured.
He procured the same medicine, and
to use his own words: "It cured me
right up." He also says: "A neighbor
and his wife were both sick in bed
with rheumatism. Their boy was over
to my house and said they were so bad
he had to do the cooking. I told him
of Chamberlain's Pain Balm and how
it had cured me; he got a bottle and it
cured them up in a week. Fifty cent

Doctors are often handicapped by the
mere fact that when treating the diseases of
women, they suggest and insist on "exami-
nations" and "local treatment." A great
many of them do not know that this is ab-
solutely unnecessary. Many a woman has
been thrown into a dangerous state of ner-
vous excitement by the mere suggestion of
such treatment. Many women lie to the
doctor. That sounds hard, but it is un-
doubtedly true. They know that if they
admit certain symptoms that the doctor
will insist on an "examination." They do
not give him all the facts in the case,
and so he works in the dark. Quite
often the doctor is too busy and too hurried
to make the necessary effort to obtain the
facts. He frequently treats symptoms for
what they appear to be on the surface, when
the real cause and the real sickness is deeper
and more dangerous. A derangement of
the distinctly feminine organs will derange
the whole body. The woman herself may
not know exactly what is the matter with
her, but whenever she is sick, there are two
things she should look out for first. One is
what is called "female weakness," the
other is constipation. For these two things
frequently go together. Dr. Pierce's Fa-
vorite Prescription is designed for the cure
of diseases and disorders of women, and it
does cure them. It has been performing its
healing mission for 30 years, and tens of
thousands of women have been made happy
by it. Dr. Pierce's Pleasant Pellets are for
constipation, and contingent ills. Druggists
sell them, but sometimes in well meaning
ignorance, they will try to sell you some-
thing else. There is nothing "just the
same" or "just as good." The druggist
who tells you there is, is either mistaken
or dishonest.

000 witnessed the opening contests.

In the 100 metres dash, the first heat
was won by F. A. Lane, of the Prince-
ton team, Szokoly, a Hungarian, com-
ing second. The time was 12.3-5 sec-
onds.

In the second heat at 100 metres,
Thomas P. Curtis of the Boston Athletic
association won, Chalkokondhis, a
Greek, coming in second. Time, 12.4-5
seconds.

In the third heat of the 100 metres,
Thomas F. Burke of the Boston Athletic
association won, Osman, a German, be-

BEND LOW AND HARK.

Bend low and hark with me, my dear,
How the winds sigh!
A voice is on them that I fear—
It brings the bygone days so near,
Like a soul's cry.

Those whom we bury out of sight,
How still they lie!
Beyond the reaches of the light,
Outside the realm of day and night—
Do they not die?

Shall we unbar the long closed door,
You, dear, or I?
Could love be what it was before
If we should call them back once more
And they reply?

Would life's largest claim again?
Why should they try
To listen to the words we say,
To breathe their blight upon our May?
Yet the winds sigh.

ONLY EARTHWORMS.

YET THEY HAVE CUT QUITE A FIG-
URE IN THE WORLD'S HISTORY.

The Worm Has No Eyes and No Sense of
Hearing, but Is Sensitive to Strong Light
and Vibrations of Sound—Objects of An-
tiquity Preserved by Earthworms.

The common earthworm, despised by
man and heedlessly trodden underfoot,
fulfills a part in nature that would seem
incredible but for the facts revealed by
the patient and long continued researches
of Darwin. "Worms," says Darwin,
"have played a more important part in
the history of the world than most per-
sons would at first suppose." Let us
follow Darwin and see how this appar-
ently insignificant creature has changed
the face of nature. We will first consider
the habits and mode of life of the earth-
worm. As every one knows, the worms
live in burrows in the superficial layer
of the ground. They can live anywhere
in a layer of earth, provided it retains
moisture, dry air being fatal to them.
They can, on the other hand, exist sub-
merged in water for several months.
They live chiefly in the superficial mold
less than a foot below the surface, but
in long continued dry weather and in
very cold seasons they may burrow to a
depth of eight feet. The burrows are
lined by a thin layer of earth, voided
by the worms, and end in small cham-
bers in which they can turn round.

The burrows are formed partly by
pushing away the earth, but chiefly by
the earth being swallowed. Large quan-
ties of earth are swallowed by the
worms for the sake of the decomposing
vegetable matter contained in it, on
which they feed. The earth thus swal-
lowed is voided in spiral heaps, forming
the worm castings. In this case the
worm obtains food and at the same
time excavates its burrows.

In addition to the food thus obtained
half decayed leaves are dragged into the
burrows, mainly for food, but also to
plug the mouths of the burrows for the
sake of protection. Worms are also fond
of meat, especially fat. They will also
eat the dead bodies of their relatives.
They are nocturnal in habit, remaining,
as a rule, in the burrows during the day
and coming out to feed at night.

The earthworm has no eyes, but is
affected by strong light if exposed to it
for some time. It has no sense of hear-
ing, but is sensitive to the vibrations of
sound. The whole body is sensitive to
touch. There appears to be some sense
of smell, but this is limited to a certain
articles of food, which are discovered
by the worm when buried in earth, in
preference to other bodies not relished.
The worm appears to have some degree
of intelligence from the way in which
it draws the leaves into its burrows, al-
ways judging which is the best end to
draw them in by. This is remarkable in
so lowly organized an animal, being a
degree of intelligence not possessed by
many animals of more complex organi-
zation. For instance, the ant can often
be seen dragging objects along traversely
instead of taking them the easiest way.

As we have seen, vast quantities of
earth are continually being passed
through the bodies of worms and voided
on the surface as castings. When it is
stated that the number of worms in an
acre of ordinary land suitable for them
to live in is 53,000, we can imagine the
great effect which they must have on
the soil.

They are, in fact, continually plow-
ing the land. At one part of the ali-
mentary canal of the worm is a gizzard,
or hard muscular organ, capable of
grinding food into fine particles. It is
this gizzard which is the main factor in
tritulating the soil, and it is aided by
small stones swallowed with the earth,
which act as millstones.

In consequence of the immense
amount of earth continually being
brought to the surface by worms it is
not difficult to understand how objects,
such as stones, rocks, etc., lying on the
surface will in course of time become
gradually buried in the ground. Owing
to the burial of stones and other objects
by the action of worms, ancient monu-
ments, portions of Roman villas and
other objects of antiquity have been pre-
served. These have been gradually
buried by the worms and so preserved
from the destructive effect of rain and
wind. Many Roman remains were stud-
ied by Darwin, and traces of the ac-
tion of worms found, to which action
their preservation was mainly due. The
sinking of the foundations of old build-
ings is due to the action of worms, and
no building is safe from this unless the
foundations are laid lower than the
level at which the worms can work—
namely, about eight feet below the sur-
face.

Another useful effect produced by
worms is the preparation of the soil for
the growth of seedlings. By their agency
the soil is periodically sifted and ex-
posed to the air, and in this way is able
to retain moisture and absorb soluble sub-
stances of use for the nutrition of plants.

BIG FALLS NOT FATAL

THAT IS, HERE IS A LONG RECORD
OF JUST SUCH CASES.

Remarkable "High and Lofty Tumbling"
by Men, Women and Children—From
What Height May a Person Fall and
Not Be Killed Thereby?

From how great a height may a per-
son fall and live? This question was
suggested by the experience of Dr.
Heim, the Zurich professor, who told
how he fell a great distance down a
glacier in Switzerland and lived to re-
late his sensations. His aim was to prove
that sudden death was not painful. The
other phase of the question—how far
may we fall unhurt—is just as interest-
ing, however.

The well known Alps wanderer, Sig-
rist, fell backward off the crown of the
Korpfstork Alp, Switzerland, and land-
ed on the rocks at the foot of the glacier.
Of course his fall was somewhat broken
as he bounded from spur to spur, but
the fall was a great one nevertheless.

Of the persons who have fallen from
balloons no record has been kept, but
the accidents have been sufficiently dan-
gerous to prove that a great fall does not
always end human life. In July last
The Post-Dispatch recorded the feat of
a negro who, to escape punishment for
stealing a ride, jumped over the Dela-
ware bridge on the Erie railroad at Port
Jervis, N. Y. He fell a distance of 80
feet, and though striking on his head in
a bed of gravel covered only by six
inches of water, he escaped serious in-
jury.

George Peterski, a young Polish boy
aged 11, went out for huckleberries on
the Honeyport mountain, near Port Jer-
vis, N. Y. He ventured too near the
edge of a cliff known as Eagle Nest,
and, slipping on a stone, was hurled
over. The descent is nearly perpendicu-
lar and the lad rolled and bounded over
the jagged rocks a distance of 400 feet
to the railroad tracks below. He was
picked up torn and bleeding from a hun-
dred wounds and unconscious, but still
alive.

That case had youth in its favor. Here
is a case of age. Mary Cerna, aged 79
years, recently fell 30 feet from a win-
dow of 257 Camden street, Newark, N.
J., and escaped with only a badly
bruised hip. She lost her balance while
sh

Robert Hall Brings Action Against T. R. Bradshaw and Others.
Special to the NEWS REVIEW.

LISBON, April 6.—Robert E. Hall today entered suit against Theodore R. Bradshaw, Annie M. Rigley and the Potters' Building and Savings company to close a mechanic's lien on lot No. 3305 in Bradshaw's addition. The plaintiff claims \$298.33 due for work done and material furnished in repairing the A. W. Serran house, located on the above property.

The Victor Stove company, of Salem, entered suit last evening against Sam W. Utter for the payment of two promissory notes for \$500 each, and payable at the Fulton bank, of Brooklyn.

Marriage licenses were issued to Peter Simon and Mary E. Wilhelm, James W. Hanney and Ella M. Lanza. Judge Smith opened court today and gave Mrs. Charlotte Mount, of Wellsville, a divorce from James D. Mount, on the grounds of habitual drunkenness and neglect. The case was not contested.

The cases assigned for today, all being continued until the next term of court, the jury was dismissed until tomorrow morning, when the case of Samuel F. Caskey versus Mabel Frederick will probably be tried.

The Kirkbride cases of Salem, which are assigned for Thursday, will be the chief matters of interest this week and will go to trial with a large number of witnesses.

THE HAND OF FATE.

It Intervenes and Ousts Anti-Bible Candidates.

Some time ago the patriotic orders of the city sent resolutions to the board of education, asking that each teacher be instructed to read the Bible to her scholars in the public schools. This was signed by the Junior Mechanics, Senior Mechanics, Sons of America, Daughters of Liberty and Daughters of America. The resolution was considered and the board refused to grant the request, citing a number of instances where this plan would be detrimental to the interest of our public school system, and claiming that they had consulted the highest educational authorities on the matter. There was but one member of the board loyal to her constituents, Mrs. Whitehead, she standing by the Bible from start to finish, never deviating from the standpoint she had taken. Today she is the only member of the old board who has the opportunity to again occupy her place in the board of education, while those who opposed the Bible can take a back seat and watch the new board handle the reins. "The mills of the gods grind slowly," etc.

EARLY MORNING FIRE.

Spontaneous Combustion Supposed to Be the Cause.

About 2 o'clock this morning an alarm was turned into the central station by telephone, notifying the department that the house of George Woodruff, of Second street, was ablaze. The company lost no time in responding, and extinguished the fire with the Babcocks. The fire originated in a washstand among a lot of clothing and the only theory that is given for the cause is spontaneous combustion. The only damage is the loss of the clothing and washstand. The fire company were almost suffocated by the smoke from the burning clothes and had to rush to the windows at intervals to get fresh air. One of the firemen had a finger badly burned. The alarm was turned in from the residence of H. L. Simms, who thinks the family telephone system a good one in case of fire, as some parties have to go quite a distance to turn in an alarm.

CAPTURED IN STEUBENVILLE.

Two Fellows Arrested in Steubenville for Stealing a Skiff From This City.

Edward Jackson and William Williams are the names given by two individuals who were arrested in Steubenville yesterday and brought to this city by Officer Earl this morning, charged with larceny.

The pair, it is alleged, stole a skiff from Isaac Riley, of this city, and rowed it to Steubenville. Riley followed to the latter city and caught them in the act of disposing of their stolen property. An officer was called and the twain placed under arrest.

Riley returned to this city and preferred the above charge against the men, and had them brought here for trial. It is thought that the names given are fictitious ones. The prisoners will probably be arraigned tomorrow.

Closes Saturday. Book auction April 11.

Hospital Association.

The women's hospital association will meet in the Young Men's Christian association auxiliary rooms tomorrow afternoon, at 2:30. Very important business will receive attention and the president desires that every lady interested shall be in attendance. The object is a good one and worthy of full consideration.

HE WAS THERE.

A Party of Drummers Discuss the Demerits of a Hotel.

While a circle of commercial travelers were discussing the merits and demerits of a number of hostleries of the country in a local hotel the other day, they confined their remarks to one particular hostelry in a nearby town. When they had finished heaping volumes of imprecations on the head of the proprietor of the hotel in question, condemning the cuisine and general accommodations, they noticed a man looking rather ill leave the hotel. When the man had gotten beyond reach of the conversation, the clerk informed the drummers that he was the proprietor of the hotel, much to their embarrassment. No doubt the proprietor will take his cue and devote his time to arranging more commodious quarters.

AFTER MORE MEN.

The Present Force At Ellwood to be Increased.

S. J. Prudens, who is superintending the quarrying of stone for the bridge piers at Ellwood City, arrived here this morning for the purpose of hiring more men for the work. The present daily output is 15 car loads of stone, and with the increased force the output will be much greater.

C. A. White, of Beaver Falls, a representative of the company having in charge the construction of the iron work of the bridge, is in the city arranging in detail the outline of work to be commenced soon.

Will Take Action.

The directors of the Young Men's Christian association will meet tonight and settle as to whether they will purchase the George building. This deal has been hanging fire for sometime past, and up to the present time nothing definite has been done.

Among the Sick.

Dr. O. D. Shay is confined to his home by illness.

Hal Huston is suffering from an attack of the grip.

Convalescing.

Miss Mary Murray, of the West End, is convalescing from an attack of typhoid fever.

The Bell Tapped.

Owing to the wires becoming crossed on Thompson's hill this afternoon, the big bell at the city hall tapped.

BEND LOW AND HARK.

Bend low and hark with me, my dear,
How the winds sigh!
A voice is on them that I fear—
It brings the bygone days so near,
Like a soul's cry.

Those whom we bury out of sight,
How still they lie!
Beyond the reaches of the light,
Outside the realm of day and night—
Do they not die?

Shall we unbar the long closed door,
You, dear, or I?
Could love be what it was before
If we should call them back once more
And they reply?

Would life's largest claim again?
They draw too tight?
O winds, be still! You shall not pain
My heart with that long hushed refrain
As you sweep by.

The dead have had their shining day—
Why should they try
To listen to the words we say,
To breathe their blight upon our May?
Yet the winds sigh.

ONLY EARTHWORMS.

YET THEY HAVE CUT QUITE A FIGURE IN THE WORLD'S HISTORY.

The Worm Has No Eyes and No Sense of Hearing, but Is Sensitive to Strong Light and Vibrations of Sound—Objects of Antiquity Preserved by Earthworms.

The common earthworm, despised by man and heedlessly trodden underfoot, fulfills a part in nature that would seem incredible but for the facts revealed by the patient and long continued researches of Darwin. "Worms," says Darwin, "have played a more important part in the history of the world than most persons would at first suppose." Let us follow Darwin and see how this apparently insignificant creature has changed the face of nature. We will first consider the habits and mode of life of the earthworm. As every one knows, the worms live in burrows in the superficial layer of the ground. They can live anywhere in a layer of earth, provided it retains moisture, dry air being fatal to them. They can, on the other hand, exist submerged in water for several months. They live chiefly in the superficial mold less than a foot below the surface, but in long continued dry weather and in very cold seasons they may burrow to a depth of eight feet. The burrows are lined by a thin layer of earth, voided by the worms, and end in small chambers in which they can turn round.

The burrows are formed partly by pushing away the earth, but chiefly by the earth being swallowed. Large quantities of earth are swallowed by the worms for the sake of the decomposing vegetable matter contained in it, on which they feed. The earth thus swallowed is voided in spiral heaps, forming the worm castings. In this case the worm obtains food and at the same time excavates its burrows.

In addition to the food thus obtained half decayed leaves are dragged into the burrows, mainly for food, but also to plug the mouths of the burrows for the sake of protection. Worms are also fond of meat, especially fat. They will also eat the dead bodies of their relatives. They are nocturnal in habit, remaining, as a rule, in the burrows during the day and coming out to feed at night.

The earthworm has no eyes, but is affected by strong light if exposed to it for some time. It has no sense of hearing, but is sensitive to the vibrations of sound. There appears to be some sense of smell, but this is limited to a certain articles of food, which are discovered by the worm when buried in earth, in preference to other bodies not relished. The worm appears to have some degree of intelligence from the way in which it draws the leaves into its burrows, always judging which is the best end to draw them in by. This is remarkable in so lowly organized an animal, being a degree of intelligence not possessed by many animals of more complex organization. For instance, the ant can often be seen dragging objects along traversely instead of taking them the easiest way.

As we have seen, vast quantities of earth are continually being passed through the bodies of worms and voided on the surface as castings. When it is stated that the number of worms in an acre of ordinary land suitable for them to live in is 53,000, we can imagine the great effect which they must have on the soil.

They are, in fact, continually plowing the land. At one part of the alimentary canal of the worm is a gizzard, or hard muscular organ, capable of grinding food into fine particles. It is this gizzard which is the main factor in triturating the soil, and it is added by small stones swallowed with the earth, which act as millstones.

In consequence of the immense amount of earth continually being brought to the surface by worms it is not difficult to understand how objects, such as stones, rocks, etc., lying on the surface will in course of time become gradually buried in the ground. Owing to the burial of stones and other objects by the action of worms, ancient monuments, portions of Roman villas and other objects of antiquity have been preserved. These have been gradually buried by the worms and so preserved from the destructive effect of rain and wind. Many Roman remains were studied by Darwin, and traces of the action of worms found, to which action their preservation was mainly due. The sinking of the foundations of old buildings is due to the action of worms, and no building is safe from this unless the foundations are laid lower than the level at which the worms can work—namely, about eight feet below the surface.

Another useful effect produced by worms is the preparation of the soil for the growth of seedlings. By their agency the soil is periodically sifted and exposed to the air, and in this way is able to retain moisture and absorb soluble substances of use for the nutrition of plants.

BIG FALLS NOT FATAL

THAT IS, HERE IS A LONG RECORD OF JUST SUCH CASES.

Remarkable "High and Lofty Tumbling" by Men, Women and Children—From What Height May a Person Fall and Not Be Killed Thereby?

From how great a height may a person fall and live? This question was suggested by the experience of Dr. Heim, the Zurich professor, who told how he fell a great distance down a glacier in Switzerland and lived to relate his sensations. His aim was to prove that sudden death was not painful. The other phase of the question—how far may we fall unhurt—is just as interesting, however.

The well known Alps wanderer, Sigrist, fell backward off the crown of the Korpstork Alp, Switzerland, and landed on the rocks at the foot of the glacier. Of course his fall was somewhat broken as he bounded from spur to spur, but the fall was a great one nevertheless.

Of the persons who have fallen from balloons no record has been kept, but the accidents have been sufficiently dangerous to prove that a great fall does not always end human life. In July last The Post-Dispatch recorded the feat of a negro boy, to escape punishment for stealing a ride, jumped over the Delaware bridge on the Erie railroad at Port Jervis, N. Y. He fell a distance of 80 feet, and though striking on his head in a bed of gravel covered only by six inches of water, he escaped serious injury.

George Petorski, a young Polish boy aged 11, went out for huckleberries on the Honeypot mountain, near Port Jervis, N. Y. He ventured too near the edge of a cliff known as Eagle Nest, and, slipping on a stone, was hurled over. The descent is nearly perpendicular and the lad rolled and bounded over the jagged rocks a distance of 400 feet to the railroad tracks below. He was picked up torn and bleeding from a hundred wounds and unconscious, but still alive.

That case had youth in its favor. Here is a case of age. Mary Cerna, aged 79 years, recently fell 30 feet from a window of 257 Camden street, Newark, N. J., and escaped with only a badly bruised hip. She lost her balance while shaking a dusting cloth from the window and fell upon hard ground in the back yard.

Here is a case of an infant: At Rockaway Beach, N. Y., George McVey, 2 years old, tumbled out of a third story window without receiving any injuries except a bruised eye and a skinned nose. He crept to the window while his mother was asleep. His fall was broken by an awning.

Women seem especially able to drop from any height and receive little or no injury. In France recently a woman tried to commit suicide by jumping from a high bridge. She was hardly injured. Near Niagara falls a woman fell over a precipice and landed some hundred feet below, alive and able to tell of it.

Mrs. Annie Keeney leaped out of a fifth story window of 125 East One Hundred and Eighth street, New York, and sustained only a few slight bruises on the face. The woman was half asleep at the time and walked over the roof of her own house to that of her neighbor's. She swung off the roof to a fire escape and asked the occupants of 125 for brandy. On being refused she leaped to the ground. Clotheslines stretched across the yard between the tenement windows, and the woman rebounded from one of these to another in her fall, until she finally landed, badly shaken up, but otherwise unhurt.

August Johnson, a joiner, residing in Middletown, Conn., fell from the fourth story of a building on which he was working, turning a complete somersault and striking with his head on some boards which projected from the first story. He managed to catch hold of the boards, to which he clung until he was rescued. He fell 40 feet. He was not injured in any way.

Edward Christie fell from a scaffold which gave way at the fourth floor of a new building at Madison avenue and Seventy-second street, New York. Although he fell four stories, he sustained no more than a fracture of the thigh and right arm. Christian Jensen, a painter, of White Plains, N. Y., fell from a ladder to the ground, a distance of 40 feet, and is alive to tell it. George Falley, 14 years old, fell through the

AMONG THE SHEAVES.

O Lord, the fields are ripe with corn!
The harvest is so near!
His joyful heart is heavenward borne
On music's pinion winging:
The sky is fair, with here and there
A downy cloudlet sweeping;
Lord, in this time of happy cheer
What do I wish my weeping?

Oh, shame, among the golden sheaves
To stain the day with mourning!
Oh, shame on him who idly grieves,
God's harvest blessing warning!
The heavens above look down in love;
The earth smiles back victorious;
By hill and vale where'er you rove
The harvest fields shine glorious.

But on my soul a sadness lies,
Made deeper by the story
Of nature's patient sacrifice
Thus perfected to glory.
Each faithful heart hath borne its part,
The autumn treasure sharing,
But I, I only know the smart
Of failure and despairing.

O Lord, had all these weary days,
These wasted weeks of grieving,
Been spent in showing forth thy praise,
I had had corn for sheaving.
Not empty hand and empty land
Had been my harvest measure,
Nor sad and stricken should I stand,
A mark for thy displeasure.

Lo! yet there comes a thought to me;
I see the poor and lowly
With bended head and bended knee
Go clearing, gleaming slowly.
